TAGORE LAW PROFESSORSHIP

The Hon'ble Prasanno Coomaz Tagore, C S I, one of the Fellows of the University, who died on the 30th August, 1868 bequeathed by his will, dated the 10th October, 1867, to the University a monthly allowance of Rs 1,000 for the purpose of founding a Professorship of Law in connection with the University to be called the 'Tagore Law Professorship'. The terms of the bequest are given in the following extract from the will (4 Bengal Law Reports, O.C.J 103, at 116)

"I am desirous of founding a Law Professorship to be called 'The Tagore Law Professorship' and of providing an adequate remuneration for the Professor who shall fill the chair provided by me. I direct that my Trustees or Trustee do and shall, as soon as may conveniently be after my death invest, in Government Securities, such a sum of money taken from my personalty or, by degrees, from the income of my real estate at the discretion of my Trustees or Trustee, as will produce the monthly sum of Rs 1,000, and that when such sum has been invested, the same may be assigned, transferred and made over to the University of Calcutta, to be held upon the following trusts, that is to say, in trust to pay out of the interest accruing due therefrom the annual sum of Rs 10,000* by equal monthly payments to the Tagore Law Professor, for the time being, and in trusts to apply the residue of the interest in the manner hereinafter mentioned. And I desire that until such sum shall have been so invested and made over as hereinafore directed my said Trustees or Trustee shall either from the proceeds of my personal estate or from the rents, issues, and profits arising from my real property, pay the sum of Rs 1,000 a month to the University of Calcutta to be applied by the University in the same manner and for the same purposes as the interest to accrue due from the funds which I have hereinbefore directed to be made over to the University. And I declare that the right of appointing a Professor to the said "Tagore Law Professorship," and removing or dismissing the incumbent therefrom shall be vested in the Senate of the University. And that the first appointment shall be made so as to begin to take effect not later than the end of one year from the date of death my will is that the 'Tagore Law Professor' shall read or deliver at some place within the town of Calcutta, one complete course of Law lectures without charge, to the students and other persons who may attend such lectures. Within six months after the delivery of each course of lectures, the lectures shall be printed and not less than 500 copies

*The present salary is Rs. 9000 per annum

thereof shall be distributed* gratuitously. I desire that the expense of such printing and distribution may be defrayed out of the residue of the annual interest of the said fund. Whatever portion of the residue may remain after defraying the expenses, I desire that it may be devoted to the printing and publication of approved works on Law of Jurisprudence. It is my will that the said 'Tagore Law Professorship' shall save as herein provided, be as to the kind of Law which is to be taught and in all other matters and things regulated by and subject to the control of the Senate of the said University.'

The Senate has adopted the following scheme for the lectures

1 In the month of June in each year, the Faculty of Law shall select not more than three subjects upon one of which the Professor for the following year shall be required to deliver a course of at least twelve lectures

To Commemorate the Jubilee of the University of Calcutta which was celebrated in 1908, the Hon'ble the Vice-Chancellor (Mr Justice Asutosh Mookerjee) proposed to the Government of India that a Professorship of Economics should be established. GEORGE V PROFESSORSHIP OF MENTAL AND MORAL SCIENCE

In commemoration of the visit of their Imperial Majesties King-Emperor George V and Queen-Empress Mary to India during 1911 and 1912 His Excellency the Governor-General in Council, on the recommendation of the Syndicate and the Senate of the Calcutta University, was pleased to sanction the foundation of a Professorship to be called the George V Professorship of Mental and Moral Science. At the Annual Convocation of the Senate in 1912 His Excellency the Chancellor made the important announcement that a recurring grant of Rs. 65,000 per annum would be made by the Government of India to the Calcutta University for the purposes of higher teaching. The

Syndicate, thereupon, decided that the University should have a Professor of Mental and Moral Science of its own. No provision existed at that time for the teaching of this branch of knowledge up to the M A standard in any of the Colleges in Calcutta, except the Scottish Churches College where the arrangements for that purpose were likely to be unfavourably affected by the impending retirement of Professor Stephen. Although elaborate Regulations for a course in Experimental Psychology had been framed in 1905, no arrangements were made or could yet be made in any College for the teaching of this increasingly important branch of knowledge. Mental and Moral Science has always had great attraction for Indian students and important papers dealing with topics under this head have been written by some of the graduates of this University. It was therefore expected that the establishment of a special chair in the subject would stimulate higher study and research on lines likely to prove fruitful. It was resolved that the salary of the Professor be fixed at Rs. 12,000 per annum.

HARDINGE PROFESSORSHIP OF HIGHER MATHEMATICS

To commemorate the visit of their Imperial Majesties King-Emperor George V and Queen Empress Mary to India during 1911 and 1912 and Their gracious reception of a loyal address from the Calcutta University, His Excellency the Governor-General in Council, on the recommendation of the Syndicate and the Senate, was pleased to sanction the foundation of a chair to be styled Hardinge Professorship of Higher Mathematics. At the Annual Convocation of the Senate in 1912, the important announcement was made by His Excellency the Chancellor that higher teaching would receive fresh impetus from the Government of India who had decided to make a recurring grant of Rs. 65,000 a year to the Calcutta University. The Syndicate came to the conclusion that the purposes of stimulating higher study and research would be best served by utilising a portion of the Imperial grant for making adequate arrangement for the delivery of post graduate lectures in Higher Mathematics. Inadequate accommodation in the M A and M Sc Mathematics classes in the affiliated Colleges and the yearly increasing number of candidates for examination in the subjects, since the introduction of the new University Regulations in 1906, convinced the Syndicate of the desirability of founding a Chair in Higher Mathematics. It was resolved that the Professorship be associated with the name of His Excellency the then Chancellor of the University and called the Hardinge Chair of Higher Mathematics. It was also resolved that the Chair should carry a salary of Rs. 12,000 per annum. The Senate also agreed to grant to the first Professor Rs. 3,000 a year as house allowance.

CARMICHAEL PROFESSORSHIP OF ANCIENT INDIAN
HISTORY AND CULTURE

Ancient Indian History and Culture constitutes a branch of study in which research can be carried by the advanced students with every hope of success. Quite apart from guidance in research, it is evident that all M.A. candidates in History should have teaching in Indian History imparted by a Professor trained in critical methods and acquainted with the results of recent researches. M.A. students in Sanskrit also would undoubtedly be benefited to a great extent by a teaching of this kind. Moreover, there is an ever-increasing number of M.A. students in History, and in the M.A. Course in History, Indian History has, by the New Regulations, been given a special place. In 1912, the number of candidates in History constituted nearly one-fourth of the total number of M.A. candidates. In view of these facts, the Syndicate were of opinion that the foundation of a Chair of Ancient Indian History and Culture was probably the foremost need of the Calcutta University. It was decided that the money for the Chair would be met from the sale proceeds of the Sanskrit Matriculation and Intermediate Courses and the Sanskrit Grammar published by the University. It was resolved that the Chair be designated the Carmichael Professorship of Ancient Indian History and Culture and that the salary be fixed at Rs 12000 per annum.

PALIT PROFESSORSHIP OF CHEMISTRY

Among the public-spirited and generous benefactors of the University, the first and foremost rank must be assigned to the late Sri Taraknath Palit, whose princely gift worth about Rs. 1,500,000 in 1912 is unsurpassed in the annals of this or any other Indian University. MY DEAR SIR ASUTOSH,

For some time past, it has been my desire to place at the disposal of my University a substantial sum for the promotion of Scientific and Technical Education and for the Cultivation and Advancement of Science, Pure and Applied, amongst my countrymen by and through indigenous agency. I have now decided to make over to the University a sum of ten lakhs of Rupees, in furtherance of the University College of Science, as projected by you with the sanction of the Senate, and my gift to the University will be made on the following conditions—

First—That the sum be invested in such approved securities as would produce an income, whenever practicable of four per cent per annum

Second—That four University Professorships or Chairs be established, one for each of the following subjects—

(a) Applied Mathematics

(b) Physics.

(c) Chemistry

(d) Botany, with special reference to Agriculture

Third—That the Chairs mentioned be always filled by Indians (that is persons born of Indian parents as contra-distinguished from persons who are called Statutory Natives of India)

Sixth—That every person elected to one of these Chairs, whether he has been educated in this country or elsewhere may, in the discretion of the Senate be required, before he enters upon the execution of the duties of his office, to receive special training, during a period of not less than one year and not more than two years, under specialists in Europe, America, Japan or such other place outside India as the Senate may, in each instance upon the recommendation of the Board, determine, and that during such period the Professor-elect be paid, from the income of the fund, such allowance as the Senate may, upon the recommendation of the Board, determine, so as to enable him to receive a thorough theoretical and practical training in his special subject.

Seventh—That it be the duty of each Professor—

(a) to carry on original research in his special subject with a view to extend the bounds of knowledge and to improve by the application of his researches, the Arts, Industries, Manufactures and Agriculture of this country

Ninth—That a graduate who has been elected a Student for any year be eligible for re election, if his work has been satisfactory, and the Senate may, in their discretion, supplement the stipend payable to any Student, from the University or other funds at their disposal provided, nevertheless, that a graduate elected to one of those studentships shall devote himself exclusively to research in his special subject, and shall not, so long as he holds the studentship engage in the study of Law or any other branch or professional knowledge.

Tenth—That, subject to the general principles outlined above, the mode of appointment of Professors, the terms and conditions under which they are to hold office, and the manner in which they are to discharge their duties, as also the conditions on which the studentships shall be awarded, retained, and renewed, be determined by Rules to be framed by the Senate in that behalf, from time to time, upon the recommendation of the Board

Eleventh—That the Senate do, on the recommendation of the Board, make adequate provision for Laboratories, Museums, Workshops, Appliances and all other requisites, essential for the due discharge of their duties by the Professors and for original investigation by the Professors and the Students attached to them

Twelfth—That whatever balance may remain out of the annual income of the fund, after payment of the salaries and allowances of the Professors and the stipends of the Research Students, as provided above, be on the recommendation of the Board, applied in the equipment and maintenance of the Laboratories and Museums, in so far as such equipment and maintenance may be necessary for the accomplishment of the work undertaken by the Professors, the Students attached to them, and other advanced pupils, if any

"SANS SOUCI"

ALIPORI, CALCUTTA,

The 2nd December, 1919THE HON'BLE SIR NILKANTH SIRCAR, K¹, M.A., M.D.*Vice-Chancellor of the Calcutta University*

DEAR SIR

About six years ago I made over to the University ten lakhs of rupees in aid of the University College of Science for the promotion of Scientific and Technical Education and for the cultivation and advancement of Science, Pure and Applied, amongst my countrymen. I understand that although that sum has enabled the University to arrange for instruction and research in Pure Science, University has not been able from lack of funds, to make a similar advance in Applied Science. I have accordingly decided to place at the disposal of the University a further sum, namely three and a half per cent Government Securities for Rs. 11,43,000, which will produce an annual income of Rs. 40,005, to be applied exclusively for purposes of technological instruction and research. This sum will be held by the University as an integral part of the original gift, and all the conditions mentioned in my letter of the 8th August, 1913 shall apply, subject to the following modifications:

First That two new University Professorships or Chairs (in all respects subject to the same conditions as mentioned in my letter of the 8th August, 1913) be established, one for each of the following subjects:

(e) Applied Chemistry

(f) Applied Physics

Note—By 'Applied Chemistry' I mean one or more of the following subjects, as suggested in the report of the Calcutta University Commission:

Color Chemistry, preparation of dyes, drugs and photographic chemicals, tanning, fermentation, gas and coal-tar industries and oil industry,

or such other subject or subjects as may from time to time be determined by the Board of Management.

By 'Applied Physics' I mean one or more of the following subjects as suggested in the report of the Calcutta University Commission:

Electrotechnology, applied thermodynamics and the standardisation of instruments,

or such other subject or subjects as may from time to time be determined by the Board of Management.

Secondly That four additional studentships (in all respects like those mentioned in my letter of the 8th August, 1913) be established, to such students to be attached to each of the Professors mentioned above.

Thirdly That the balance which will remain out of the annual income of the fund, which is likely to exceed Rs. 24,000, after payment of the salaries of the Professors and studentships, should be applied to the equipment and maintenance of the necessary Laboratories, Museums and Workshops, the adequate provision for which is absolutely necessary, and for which sufficient money might not be available from other funds at the disposal of the University.

Fourthly That the Board of Management do include the Professors of Applied Chemistry and Applied Physics on the same way as the other four Professors mentioned in my letter of the 8th August, 1913.

On receipt of intimation that the Senate has accepted my offer, I shall arrange for the transfer of the securities to the University.

Yours truly,

RASHBEHARY GHOSE

The princely gift was thankfully accepted by the Senate at their meeting held on the 3rd January, 1920, on the conditions specified by the donor.

In accordance with the term of Sir Rash Behary Ghose Endowment the Senate has appointed the following Professors —

Sir Rash Behary Ghose Professor of Inorganic Chemistry

UNIVERSITY PROFESSORSHIPS OF ENGLISH

In view of the importance and popularity of English as a branch of study for Post-Graduate students and the extent of the course prescribed in the subject, it has been found necessary to establish two Professorships in English. Stephen M.A., D.D., and Mr Robert Knox, M.A. be appointed as the first incumbents. The proposal received the sanction of the Government of India.

STEPHANOS NIRMALENDU GHOSH LECTURESHP

In August, 1919, Mr G C Ghosh of 2, Simla Street, Calcutta, made over to the University 3½ per cent Government Promissory Notes for one lac of rupees for the institution, in memory of his son, of a course of lectures on Comparative Religion to be delivered before the University of Calcutta according to appointment made at stated intervals of not more than three years, the lecturer to be appointed after advertisement in the celebrated Universities of the world. The donor stated that his desire was that the lecturer should, in dealing with the subjects of his lectures, endeavour to show that the highest ideal for man lay in love and service to his fellowmen according to the essence of the teaching and life of Christ, and that life lived under the guidance of this ideal constituted the highest advancement of human personality, the acceptance of a particular creed or dogma being of subordinate importance.

From G C Ghosh, Esq., 2, Simla Street, Calcutta, to the Vice-Chancellor Calcutta University, Calcutta, dated the 10th March, 1919

I am desirous of making over to the University of Calcutta 3½% G P Notes for one lac of rupees for the following purpose —

The University is to appoint an eminent Savant by advertising to the celebrated Universities of the world to deliver a series of lectures in Comparative Theology quinquennially in the cold season in Calcutta to be called "Stephanos Nirmalendu Ghosh Lectures," whose remuneration will be paid from the 4 years' accumulated income from the above described Securities, after deducting from it the approximate cost of printing about 1000 copies of his Lectures.

By a previous arrangement by the Calcutta University with the Lecturer, if he kindly so agrees and one or two other Universities in India so desire, he may deliver such lectures also in other places in India.

It is my desire that in dealing with the subjects of his Lectures it will be the aim of the Lecturer to show that the highest ideal for man is in unselfish love and service to his fellow man which is the essence of the teachings of Christ.

I shall be glad if my offer is accepted.

From G C Ghosh, Esq., 2, Simla Street, Calcutta to the Vice Chancellor, Calcutta University Calcutta, dated the 11th March, 1919

In continuation of my letter to you on the 10th instant regarding the foundation of lectures in Comparative Theology by me quinquennially in Calcutta, I desire to say for removal of any ambiguity that the lectures to be arranged by your University to be delivered in other places shall be after such lectures have been first delivered in Calcutta every time.

From G C Ghosh, Esq, 2 Simla Street, Calcutta, to the Vice-Chancellor, Calcutta University, Calcutta, dated the 28th April, 1919

With reference to my previous correspondence regarding the Lectureship on Comparative Theology founded by me, I have the honour to request you to consider this letter as a part of the same for the future guidance of the University and the Lecturers to be appointed under the scheme

(1) If the University thinks that quinquennial lectures would make the intervals too long for effect and that three years' income from the Endowment will be adequate for securing the service of the Lecturer, the lectures may be given quaterennially and the three years' accumulated income may be availed of, instead of four years' as stated in my first letter

(2) I think it would be well under the circumstances if Rs 1,000 or so be spent towards the publication of the lectures, instead of having a thousand copies of them published as suggested in my first letter, as I consider the latter measure would mean too much expense in view of the increased cost of paper and printing

(3) As I have stated in my first letter I beg to state, in order to be more explicit, that my object is to show the young men of my country that it is not meant that man's eternal welfare should depend upon any belief, the interpretation of a particular text or the acceptance of a religious creed, but that he is required to love and serve his fellow beings whereby he would be able to live the life that is required of him by God. It is found that centuries of schools of thought and religious discussions have resulted only in hatred and persecution of those who have sincerely differed from the views dominant at the time, instead of producing love and sacrifice which only are acceptable offerings to God

(4) My object is not to show the superiority of a particular religion but to show that in the dealing out of man's unselfish love and service to man, i.e., in living the religion of love constitutes the highest advancement of his personality

From G C Ghosh Esq, 2 Simla Street, Calcutta, to the Registrar, Calcutta University, Calcutta, dated the 5th August, 1919

"I have the honour to acknowledge the receipt of your letter dated the 2nd instant intimating to me that my offer of one lac of rupees for founding a Lectureship on Comparative Theology to be called "The Stephanos Nirmalendu Ghosh Lectures" has been accepted by your University, and that any suggestions that I might make in its connection your University would take them into consideration and that one lac of rupees in Government Promissory Notes might now be sent by me to the University

(1) I am glad that your University is willing to let the Lectures be founded by me on the conditions stated in my first letter and I am grateful for its acceptance of the suggestions made by me in my letter of the 28th April last and that it is willing to take any further suggestions that I would like to make about them

(2) If the University will make the Lectures quaterennial as has been desired by me in my letter of the 28th April last, the lectures for the first time will be delivered in the Winter of 1922, and the interest of the Government Promissory Notes for 1919, 1920 and 1921 will be used to meet the expenses of the same

(3) I trust your University will be so good as to arrange for all things I have desired in connection with the Lectures before they are delivered in Calcutta and elsewhere.

(4) It is my wish the lectures should be delivered in a central academic place where a large audience is expected to gather by previous notifications in public places and in two public prints for the information of the Mofussil people.

(5) I think it would be well if the delivery of the lectures be inaugurated and opened every year by a distinguished gentleman.

(6) I think it would be well also if some University authority will kindly be present during the delivery of the lectures till their end to keep order at the place.

(7) I shall be obliged if you will inform me to whom I shall endorse over and deliver the Government Promissory Notes.

(8) I shall be grateful if I be supplied with the abstracts of deliberations of the University about my endowment from time to time.

(a) In conclusion I beg to suggest for the consideration of the Lecturer that my object is (a) to help the moral and spiritual advancement of my countrymen by helping the unfoldment of the Divinity in them which is calculated to make them truly happy, (b) that the Lecturer will aim to show that excepting the fundamental truths of the Godhead and its attributes *viz.*, Love, Wisdom, etc., which are acknowledged by all civilized men, creeds, dogmas, canons, etc., of the religions past and present which were necessary in the time of their first promulgation have no permanent value, just as in all living organisms we find elimination of the old and decayed cells is incessantly going on and newer cells are coming forth for the formation of newer bodies. So it may be proper to think that God's revelation was not closed in the past when the creeds, etc., were fixed, and so if the fountain of revelation has not dried up they should not be made to hinder the reign of an ever higher conscience in human mind if a religion is to be taken as an institution having a form of life within it. So the true and lasting form of religion will be based upon the inner supremacy of reason purified by revelation above any external authority, dogma, etc., which are inadequate to sustain a feeling of obligation.

Although I venture to make these my humble suggestions, I do not like to make them binding upon any Lecturer who I trust will be a God-fil'd man and knowing his duties well.

The generous offer of Mr. Ghosh was thankfully accepted by the Senate at their meeting held on the 29th March 1919.

The following rules were adopted by the Senate at their meeting held on the 27th September 1919.

(1) (a) That a course of lectures on Comparative Religion be delivered in English once in every three years,

(b) that the Course to consist ordinarily of eight lectures, and be delivered not more than twice a week.

(2) That the honorarium of the lecturer be Rs. 9,000.

(3) That the copyright in the lectures do vest in the University.

(4) (a) That the cost of publication of an edition (consisting ordinarily of 500 copies) be paid by the University, (b) that of the sum required for this purpose, Rs. 1,000 be paid out of the endowment fund, and the balance if any be paid out of the general funds of the University, and (c) that the sale proceeds be placed to the credit of the endowment fund.

(8) That, on each occasion, the advertisement be issued at least two years and a half before time fixed for the delivery of the lectures and candidates be required to submit their applications on or before a prescribed date at least one and a half years previous to such time

(10) That it be a condition of appointment of each lecturer that he will deliver to the University a complete copy of his lectures within one month after their delivery

University Law College

The history of the foundation of the College is set out in the following minute by the Hon'ble Justice Sir Asutosh Mookerjee, Kt, C SI, M A, DL, DSc, Ph D, FRAS, FRSE, FASB, late Vice-Chancellor of the University -- "The branch of our educational system which stands in need of the most urgent and radical reform is that concerned with the teaching of Law for our Degree Examinations. It is a noteworthy fact that we have not got a single College devoted entirely to the study of Law, as we have in the cases of Medicine and Engineering. When the University was founded in 1857, Law classes were attached to the Presidency College which was in the main, an Arts College. The number of Law students was comparatively small, and the first Professors employed to teach Law were men of considerable distinction. In 1864, the Government decided to attach Law classes to its College at Hughli, Dacca, Krishnagar, Berhampur and Patna. In each case, a distinguished graduate in Law was appointed on a fixed monthly salary and the best men available from the ranks of the then new batches of Law graduates were engaged. The classes at all these Colleges were comparatively small, and the teaching imparted was more or less efficient from the point of view of the Law Regulations as they existed at the time. In 1867, similar Law classes were attached to the Colleges at Cuttack and Chittagong and in 1880, Law classes were attached to the College at Rajshahi. Up to the point of time we have reached, the Law classes were attached only to Government Colleges, and the fees charged were moderately high. In the case of the Presidency College, the fee was five rupees a month in the First year Class and ten rupees a month in the Second and Third year Classes, in the case of other Colleges, it was nowhere less than five rupees a month. In 1882, the authorities of the Calcutta Metropolitan Institution applied for affiliation in Law. The application was granted, and as no conditions were imposed Law classes were opened with a monthly fee of three rupees in the First-year Class four in the Second, and five in the Third-year Class. The immediate result was that the Presidency College lost the majority of its Law students. Shortly after, the City College was affiliated in Law in 1883. Two years later, the Ripon College was affiliated in Law in 1885 and opened classes at a uniform rate of three rupees, with the result that the other private Colleges were obliged to come down to the same level. About this time, the Government closed the law classes in the Presidency College. Since then, another College has been affiliated in Law in Calcutta, namely, the Bangabasi College, in 1896, and six Colleges in Mufussil have also been affiliated in Law, namely, Cooch-Bihar, Bhagalpur, Midnapur, Bankipur, Barisal and Rangoon. The University, therefore has at the present time nominally 19 Colleges to which Law classes are attached, but there are really 18 at work, as the Presidency College has had no classes during more than twenty years. The Calcutta Colleges have raised their fee from rupees three to rupees four. In the Mufussil Colleges, the fee ranges from rupees three to rupees six. The classes everywhere in the past were more or less full but the College which has had the largest number on its rolls is the Ripon College. As regards the efficiency of these Colleges, judged

from the point of view of the requirements of the new regulations, only one opinion is possible, they are nowhere near the mark, and the arrangements, made, can, at the best, be regarded as nominal compliance with the regulations. The system which has prevailed for many years past in most of the Government Colleges in the Mofussil, namely to pay the Law Lecturer the amount of fees paid by the students has been suicidal. To take one example, in a Government College situated not very many miles from Calcutta, there was during the last session only one student who paid five rupees a month, and for this sum a Government Pleader, who is the Law Lecturer, is supposed to have taken him through a complete course of Law studies. In Calcutta, where the number of students is very large, the state of things has been just the opposite, and the successful endeavour has been made to turn the Law Classes into as lucrative a business as possible. The object has been gained, practically, by an entire sacrifice of discipline. A class may have on its rolls 150 students, the Lecturer begins at the appointed time, say 8 o'clock in the morning, with a dozen students, after he has lectured for half an hour, students begin to drop in till the class becomes pretty full when the rolls are called. Proper continuity of work is hardly possible under such circumstances. The majority of the students have no books, they do not intend to listen to the lectures, very many of them are employed as Teachers in School or Clerks in Offices and their only anxiety is to get credit for attendance at a certain number of lectures as required by the University Regulations, and it is by no means an unusual incident for a student to get himself marked "present" by a proxy. Not only are the majority of the students irregular and unpunctual in attendance, not only in attendance expressly for the purpose of colourable compliance with the University Regulations—the same laxity characterises, in many instances, the payment of college fees which are often allowed to fall into arrears and sometimes unrealised and lost to the college. All this laxity encourages our graduates to enter themselves largely as Law students, so that at some future time when occasion may arise or when they may find it convenient they may appear at the Examination on the strength of their attendance at these lectures. This is manifestly contrary to the spirit of the new Regulations. The new University Regulations in Law contemplate a thorough training in all the subjects of the Examination. The number of subjects has been increased by the introduction of important branches like Roman Law Theory of Legislation Equity and the English Law of Real Property. The number of lectures to be delivered, to cover the course, is considerably in excess of what was required under the old Regulations. Students are required to attend Moot Courts where legal problems are discussed by them under the presidency of their Professor as judge. This can be done with profit and instruction only if the students have been taken in small batches and taught by their teachers to study and analyse cases and to deduce legal principles from a first-hand study of important judicial decisions. Then again, in the Examination under the new Regulations 40 per cent of the marks are to be allotted to the solution of questions framed with a view to test the ability of candidates to apply the more important legal principles to concrete cases. The Regulations provide not only that full credit is to be given for well-reasoned answers to such questions, even though the conclusions happen to differ from the views taken in decided cases but also that no credit shall be given for bare answers unsupported by arguments. All this implies a far more thorough training than can be obtained by mere attendance at lectures delivered to large classes of students. Indeed the Regulations assure a thorough grounding in legal principles, and a systematic study of illustrative cases such as can be pursued only in a good Law Library and under the guidance of an efficient teacher placed in charge of a limited number of students. From the point of view of the new Regulations, not one of the Law classes can consequently pretend to

make any approach to efficiency. No College has got a good Law Library or a sufficient number of efficient teachers. No attempt is made to enforce discipline among the students. The Bengal Education Department has realised this and I understand that the Law classes attached to all the Government Colleges in Bengal will be closed from the beginning of the current session. The Government of Eastern Bengal and Assam have also realised the situation, and the Law classes attached to the Government Colleges in the Province will shortly be closed, and will be replaced by a Law School at Dacca, a proposal for the affiliation of which will be submitted to the University by the Director of Public Instruction. So far as the private Colleges out-of Calcutta are concerned they cannot possibly satisfy the requirements of the Regulations. So far as the private Colleges in Calcutta are concerned, the authorities of the Bangabasi College have already intimated to the University that they have decided to discontinue the Law classes from the beginning of the ensuing session. So far as the Metropolitan Institution and the City College are concerned, neither of them makes a substantial profit upon the Law classes and if their Law classes are closed, the financial position of the Colleges would not be seriously affected. As regards the Ripon College, with which I shall deal latter on, the case is different, this particular College effects a substantial saving upon the Law classes, a portion of which is apparently absorbed in the maintenance of the Art Department. If the Law classes in the Ripon College are closed, it would mean a substantial loss to the Proprietor. As I have already stated, however, none of the existing Law classes is efficient from the point of view of the new Regulations, and I am not prepared to concede that these Law classes should be allowed to exist either for the maintenance of the Arts classes or for the profit of the Proprietors. Under Section 7, Chapter XIX of the Regulations, the University is called upon to submit the case of each College to the Government of India and I feel no doubt that neither the Syndicate nor the Senate can, with any sense of self respect, recommend the continuance of the present system which has been a serious blot on our educational methods for many years past. I invite the University, therefore, to face the situation, and refuse to countenance any longer what has hitherto prospered under the name of legal education. The only solution of the situation is to close all the Law classes and for the University, to found a Law College, like the law Colleges in Madras, Bombay and Allahabad. The Law Colleges in the other Provinces are owned and maintained by Government, the Law College proposed by me will however, be a University College though we may thankfully accept any aid which the Government may give. I do not desire it to be understood, however that I claim any monopoly for the University Law College as I have already stated, there will be a similar Law School, though on a smaller scale at Dacca and I trust that at no distant date, there may be a well-equipped Law School for Behar at Bankipur. It is not inconceivable also that with liberal endowments a Law College may be established in some other part of the province. But whenever or wherever such an institution may be established, and whoever may maintain it, the essential condition for its affiliation to the University must be that it is *bonafide* centre of legal education. I shall now give an outline of my scheme.

The University Law College shall be under the management of a Governing Body of Twelve members, constituted as follows —

1. The Vice-Chancellor *Ex-officio President*
- 2-4. Three Judges of the High Court (to be nominated by the Chief Justice of Bengal in consultation with the Vice-Chancellor)
5. The Advocate-General of Bengal, *Ex-officio*
- 6-7. One member of the Bar and one Vakil of the High Court (Both to be nominated by the Faculty of Law)

8 The Legal Remembrancer to the Government of Bengal.

9 The Director of Public Instruction, Bengal

10 The Principal of the Law College

11-12 Two Lecturers of the College to be elected by the Staff

Members of the governing body shall be elected annually. Occasional vacancies shall be filled up by the Syndicate, upon the recommendation of the body entitled to elect

The management of the College shall be vested in the governing body, but their proceedings shall be subject to confirmation by the Syndicate

As the governing body described above cannot be completely constituted till the College has been actually established and the Principal and the staff appointed a provisional Committee shall be appointed by the Syndicate

The College shall have a whole-time Principal who shall not be allowed to practise in Courts. His salary shall be Rs. 800 a month rising to Rs. 1,000 by annual increment of Rs. 50. It may be added that each of the Law Colleges in the other Provinces has a whole-time Principal, and it does not require any argument to show that some one must make it his business to look after the College and to maintain it in a state of efficiency

If we assume that there will be 150 students in each class, there must be in addition to the Principal, one Professor on Rs. 200 a month, and 8 Assistant Professors on Rs. 150 a month. For a larger number of students, the staff will have to be proportionately increased

The Principal shall lecture two hours a day and the Professor one hour a day, during at least 30 weeks in the year (this would include systematic lectures as well as sittings of the Moot Court). The Assistant Professors will take the students in batches of twenty. Each Assistant Professor will, therefore, have under his charge 20 First-year and 20 Second-year students. He will, on alternate days, take the two sets of students to the Library for tutorial work and discussion of cases, during, on an average, 2 hours a day, he will also give the students under his charge regular weekly exercises or subjects for essays which will be corrected and returned. The duty of each Assistant Professor, therefore, will be discussion with the students 2 hours every day and correction of forty exercises a week. Each student will, thus, have 9 hours lectures a week and 6 hours work a week in the Library. This, I think, is a very moderate demand to make, and I shall not be surprised if it is found necessary to increase the quantity of work later on. What I have suggested is extremely moderate in comparison with the work demanded from students in Law Colleges elsewhere which have reached a high degree of excellence, for instance, Columbia and Harvard in the United States and Tokyo in Japan. I do not doubt, however, that even the moderate beginning in earnest work which I propose, will reduce the existing number of nominal students who now swell the rolls. In the University College no one, I hope, will take his admission who does not seriously wish to undertake the study of Law, and, for myself, I do not wish any body else to come near the place. No one, I trust, deems it the duty of the University to encourage or countenance a system under which the very first art practised by young aspirants for entrance into a learned and honourable profession in defiance of discipline and evasion of the University Regulations

The monthly recurring expenditure will be Rs. 2,200 in the first-year. I have estimated the number of students at 300. The tuition fee must, therefore

be fixed at Rupees eight a month, which is, by no means, too high, if we consider the quality of training we propose to give. In any event, a Law student, even under the conditions I propose, will have to spend less, and will have much easier life than a Medical or an Engineering student. I am in a position to add, however, that the Government of Bengal is prepared to make an annual grant, to be devoted to reducing the fees of students by the grant of scholarships at the discretion of the Governing Body, the amount of the grant will be Rs 35,000 a year for the first five years, and will be subject to reconsideration at the end of that period. With this sum at our disposal we may for instance, institute about one hundred and forty-five students of Rs 2 a month to be given to deserving students upon the results of work done in the College. The effect to this arrangement will be that deserving students will, practically, have to pay a fee of Rs 6 only a month.

The College must have a good Law Library, Rs 30,000 to start with is a moderate estimate. I suggest that this amount be provided from the University Reserve Fund. In addition to this, the Government of India and the Government of Bengal are prepared to help us and to place in the Law College Library, for the use of Law students, several sets of the Indian Law Reports and other Law Publications of the Government of India and of the different Local Government.

The College must be suitably located. There will be no difficulty in providing proper theatres in the University Buildings which we propose to erect at once on the land recently acquired by the University towards the west of the Senate House. I would also suggest that of the Reading Rooms in the Darbhanga Library Building, eight may be fitted up with small working Libraries where the students may read under the guidance of the Assistant Professors.

If the scheme is approved, I hope to be able to get everything ready so as to be in a position to open the Law College in July, 1909.

I have given, I hope, an intelligible outline of the proposed University Law College. The details, of course will require careful consideration and must be left to the Provisional Committee. I wish it to be understood also that the details I have suggested may require modification in the light of experience.

There are two other questions which incidentally arise and deserve consideration, the first of these relates to what are known as Pledership students and the second, to the Ripon College.

As regards the Pledership students, they are required under Rules, framed by the High Court, (Chapter XI, Rule 6 of the High Court Rules, page 263) to attend lectures at one of the Colleges affiliated in Law to the Calcutta University, before they are allowed to appear at the Pledership Examination. The University is not directly concerned with these students, and if a strict view is taken of the scope of the University Law College, it may well be contended that these Pledership students ought not to find any place in our Institution. It will be a matter for the authorities who controlled that Examination to decide whether the Rules ought to be so modified as to allow Pledership students to read in some one or all of the existing Law Classes. If such a course is adopted—as may well be on the ground that the Pledership course differs in some essential respect from our B.L. Course—we shall have nothing to do with the Pledership students. If, however the High Court desires that the Pledership students in future should undergo the same kind of training as we propose to give to our B.L. students, and if the University consents to find accommodation for them, we may very well ask the Government to give us substantial aid. The question of the provision to be made for the education of Pledership students, however, obviously does not concern the University directly, and cannot deter or

delay any action which the University may find essential in the true interests of the education of its Law students

Next, as regards the Ripon College, I have already stated, that it makes a substantial profit out of the Law classes, the withdrawal of affiliation in Law will therefore mean loss to the Proprietor. I do not hesitate to say that this ought not to deter or delay the action on the part of the University which is essential in the interests of sound education and discipline. At the same time, I think the University may, if the Proprietor so desire, assist him to put the College finances on a sound basis. I have before me the Report of the University Auditor on the College Accounts, such as they are. One fact is patent. A large amount of money is annually lost in the B.L. classes, in the Pledership classes, as also in the Arts classes, by reason of great laxity in the realisation of fees from the students. The remedy for this lies in the hands of the Proprietor himself. In the next place, it seems to me clear that if the Arts classes are to be made self-supporting, the College fees must be raised, and a rise of even one rupee a month in the fee paid by each student would bring in a considerable sum, nearly sufficient to make up for the loss likely to be caused by the abolition of the B.L. classes. If the Pledership classes are also abolished, there would perhaps, be no margin left for the Proprietor, if, however the High Court is satisfied that the Pledership classes can be remodelled, so as to meet the requirements of that description of students, and if the High Court recognises the Pledership classes, there would be a margin left for the Proprietor. The condition of this particular College and of some of the other Private Colleges in Calcutta suggest to my mind that it may be desirable for the University to arrange for University Lecturers to teach the B.A. and B.Sc. Honours Courses. If this idea is carried out, as has already been recommended by the Syndicate, the pressure upon these Colleges in the Arts department would be considerably reduced. I may add that if one or more of these Colleges will seriously consider the question of a small rise in the fees levied from Arts students, the Syndicate may very well help them to come to a common understanding upon the point, so as to avoid the unfair competition referred to in Section 6, Clause (i) of Chapter XVIII of the Regulations. The University may reasonably be expected to assist the Colleges so as to facilitate their work, but I maintain, at the same time, that the University ought not to be expected to countenance a thoroughly unsound system which is misnamed legal education for the benefit of either Arts Classes of Colleges or of their Proprietors."

The above Minute was considered by the Syndicate at their Meeting on the 4th July, 1908, when the following Resolution was adopted —

"That the Syndicate recommend to the Senate that a University Law College be established and that the Syndicate be authorised to appoint a Provisional Committee to organise it"

The Minute was also considered by the Faculty of Law at a special meeting held on the 14th of July, 1908, when the following motion was carried —

"That the Faculty do record its opinion that for the promotion of legal education of students for degrees in Law, it is desirable to establish a University Law College, to serve as a model College, but not so as to create a monopoly either general or local"

On the 21st July, 1908, upon the motion of the Vice-Chancellor the Senate unanimously accepted the recommendation of the Syndicate and the Faculty of Law that a University Law College be established. This resolution of the Senate subsequently received the sanction of the Governor-General in Council

on the 25th August, 1908, and the College was formally affiliated to the University in Law with effect from July, 1908

The College is under the management of a Governing Body, consisting of sixteen members, constituted as follows —

During the session 1918-19, the the teaching arrangements in the college have been entirely re-organised in accordance with the scheme outlined in the following memorandum by Sir Asutosh Mookerjee

“The unsatisfactory system of training of law students, which prevailed in our colleges before the University Law College was founded, is described in a memorandum drawn up by me on the 1st July, 1908, and printed in the University Calendar for 1917 Part I, pages 112-117. The System now in force marks a considerable advance upon the pre-existing condition of things, but stands in urgent need of further improvement in essential particulars

Under the present system, the students are taught in two types of classes. In one type of classes, the students are required to attend three lectures a day, two of them delivered to a class of 150 students each, the other two, a class of 25 students, commonly known as a tutorial class. Each of these lectures extends over a period of 45 minutes, so that the student attends lectures which occupy him for two hours and fifteen minutes. In the other type of classes, the students are required to attend two lectures a day each extending over one hour, each of these classes comprises on an average from 50 to 60 students. There is also some arrangement for written exercises, but it is of so inadequate character that no further reference need be made to the subject. There are, in addition, moot courts. Cases are prescribed in advance to be studied by students, these are thereafter argued by them in the class with the professor in the chair. It is obviously impossible for every student to take part in these discussions and as a matter of fact in each class there is a small group of students who systematically join in the debate, while the others somewhat listlessly watch the proceedings.

The vital defect of the present system is that it does not ensure independent work on the part of the student, he is supposed to listen patiently to long courses of lectures, and, if he is specially diligent, to take down notes and analyses with a view to commit them to memory. In other words, he is supplied with pre digested food which he is expected to assimilate. But if there is any branch of study which requires independent thought on the part of the student it is unquestionably law, and he should be made to cultivate from the earliest period, that habit of clear and accurate thinking which is essential for the attainment of professional success. This point of view has pressed itself upon my mind for some time past, but I have not been able hitherto to suggest a complete reorganisation of the teaching arrangements in the University Law College, by reason of financial considerations. At the time of the establishment of the College, in 1909, we found it necessary to draw from the general funds of the University a considerable sum of money for the equipment of the library, year by year, the sum advanced has been paid back in instalments, and on the 30th June of the current year, the final balance due will be repaid. From the commencement of the ensuing academic session, we shall thus be in a position to spend the whole of our income for the benefit of the students. In these circumstances, I venture to ask the indulgence of my colleagues on the Governing Body, to place before them proposals for a more efficient scheme of legal studies for the benefit of our students than has hitherto been found practicable.

The two principles which underlie my proposals are as follows

- (1) The number of formal lectures which each student is required to attend should be reduced,

(2) each student should be required periodically to compose a short essay on a prescribed subject, after he had an opportunity to study it under the guidance of his teacher, who would suggest a suitable course of reading therefor,

(3) These exercises would be submitted to the teacher, who would correct them at home, and would subsequently meet the students in small groups, to discuss with them points which arose on the exercises and any cognate topics

After careful consideration of the entire course prescribed by the Regulations, I am inclined to adopt the view that no student need be required to attend more than one lecture a day, and that each student should be required to compose, under tutorial guidance as indicated above, one essay every two weeks. The college session covers from 25 to 30 weeks, each student will consequently be expected to prepare from 12 to 15 essays, during the whole year. This I do not consider to be too exacting, and I trust that if a student faithfully does his work, he will cultivate that habit of accuracy and conciseness which is absolutely essential for a successful career in the profession. In addition to this, the arrangements for moot courts will be continued, as required by the Regulations

The maximum number of students who can be accommodated in the College in the morning and the evening classes, is 2,400, the highest number we had on our rolls was during the last session, viz, 2,180. If we fix the number at the maximum, we have to arrange for approximately 800 students in each of the three classes, as we have under the regulations a three years' courses of law study. I would divide each class into section, of 100 students at the most. Each section will be subdivided into two groups for delivery of the formal lectures and into four groups for purposes of tutorial work. Each section of 100 students will then be placed in charge of two teachers, each lecturing on half the course and each taking the tutorials in his special subjects. The duty of each teacher, thus, will be as follows

(1) to deliver, on six days in the week, one lecture a day to a class of 50 students at most, extending over one hour,

(2) to correct 25 exercises a week

(3) to meet 25 students in group of 8, on three days in the week (one hour each day). As the correction of exercises will be done at home, each teacher will have to attend in the University buildings 9 hours in the course of the week.

The work of each student will be as follows

(1) to attend one lecture a day, every day in the week

(2) to compose one essay, in two weeks.

(3) to attend a tutorial class for one hour, one in two weeks,

This scheme will require a staff of 48 teachers, namely, two for each of the 24 groups of 100 students. It is manifest, however that some links must be provided for co-ordination of the work, it would be disastrous, indeed, if each teacher were left free to follow his own way without consultation with such at any rate of his colleagues as might be engaged in dealing with the same subject as he himself was teaching. It would consequently be necessary to group together the teachers in each subject and to appoint a Chairman for that group. Each group, under the guidance of its Chairman, should meet at stated times in the University buildings, fix the subjects for tutorial work discuss, how the work was progressing, and compare notes of their experience. Let me take a concrete illustration. In the second-year Class, each student is required to attend lectures on four subjects, namely (1) Muhammadan Law &c, (2)

Transfer of Property, (3) Real Property and Succession, and (4) Contracts and Torts. We shall have 16 teachers for the 8 sections of 100 students each, eight of these teachers will take up the first two subjects in the 8 sections, the remaining eight will take up the other two subjects in those sections. Each group of 8 teachers will have a Chairman, to be selected with due regard to seniority and academic distinction. As there will be 6 such groups in the three Classes taken together, we shall require $48 + 6 = 54$ teachers. In addition, we have the Principal and the Vice-Principal, who, in spite of their heavy administrative duties, may be able to participate, to a limited extent, in the work of instruction or supervision as Chairman. I would further suggest that the gentlemen appointed as Chairman may not only secure that the work by the several groups of teachers with whom they will be respectively associated is properly organised, but they themselves may very well be expected to deliver during the year, short courses of 4 to 6 public lectures on important topics selected at their choice. These lectures may be thrown open to all law students in the University, and the Professors may also be encouraged to publish them, if they are allowed to retain the copyright.

* * * * *

I am inclined to think that it would be an advantage to constitute a small Council, consisting of the Principal, the Vice-Principal and the 6 Chairmen, to exercise general supervision over the whole teaching work of the institution, and if it is found necessary to associate myself with this body in effectively carrying out the scheme of reorganisation, I shall cheerfully find time for the work."

In accordance with the above scheme, the staff has been distributed as follows:

SIBLEY SCHOLARSHIP

The late Mr. George Sibley, formerly a Fellow of the University bequeathed all his shares in the Ghoosery Cotten Mills Company Limited to the Senate of the University "upon trust to found Scholarships of the value of Rs 50 per mensem for graduates of the University in Civil Engineering, with power to divert from time to time any portion of the income not exceeding an equal moiety in any other way, which may in the opinion of the Senate be better calculated to further the study of Engineering Science among the natives of India." At the time of his death Mr Sibley owned 225 shares in the above-named Company, their nominal value being Rs 200 each. Of these, 25 shares had to be sold to meet the claim of the Indian Revenue authorities in England demanding a legacy duty of 10 per cent of the value of the shares and of the amount of any dividends received or accrued since the testator's death, and to pay the Attorney's bill of costs. The remaining 200 shares, together with dividend warrants for Rs 800, were made over to the Secretary and Treasurer, Bank of Bengal, with instructions to sell the shares at their market value, and to invest the sale proceeds and the amount of dividends in the 4 (reduced to 3½) per cent loan of 1865. The Faculty of Engineering at their meeting held on the 22nd March, 1893, recommended to the Syndicate that out of the interest of the above endowment one Scholarship, to be called the Sibley Scholarship, of Rs 30 a month tenable for two years, be awarded annually (1) to any B.E. at the end of his practical course who attends and works regularly in an electrical laboratory or in an electrical workshop, or (2) to any B.E. who is *bona fide* working in a mine. The selection of the scholar to be according to their standing in the B.E. Scholarships for Study outside India.

REVISED RULES

GOVERNMENT SCHOLARSHIPS TENABLE IN THE UNITED KINGDOM BY INDIANS

No 399, dated Simla, the 1st May, 1916

RESOLUTION—By the Government of India, Department of Education

Three questions of importance have lately been engaging the attention of the Government of India in connection with the policy regarding State scholarships --

(a) The advisability, in the interest of female education in this country of assisting and encouraging Indian women to receive a medical training outside India in the United Kingdom or elsewhere,

(b) The insufficiency, in some cases, of the existing rates of Government scholarships, and

(c) The difficulty of securing the admission of State scholars to the Universities of Oxford and Cambridge

2 The importance of (a) has been emphasised by the recent institution of a medical service for women in India. Moreover the provision of facilities for a course of training in Europe should increase the attractiveness of the study of medicine as well as afford an inducement and an opportunity for the best women graduates to undertake special courses of training abroad. The Government of India have accordingly invited and obtained the approval of the Secretary of State to the grant from Imperial revenues, to an Indian woman graduate of one scholarship annually, tenable in the United Kingdom or, with

special sanction, in foreign countries. This scholarship, however, will not necessarily be confined to the study of medicine but will also be available for training in certain other subjects. The general practice will be that while the scholarship will usually be awarded for the study of medicine, it may also be available for a candidate who desires to undertake some other educational or professional course. Further particulars regarding the scholarship will be found in Appendices I and II. The first scholarship will be awarded in 1916.

3 As regards paragraph 1 (b), it has been found that in the case of scholars residing at an Oxford or Cambridge College the allowance of 200*l* a year is sufficient only to cover the necessary expenses of college life and permits little margin for vacation and other expenses. The existing allowance of 150*l* in the case of Oriental scholars is also considered inadequate. Hence after consultation with Local Governments and with the sanction of the Secretary of State the Government of India are pleased to announce that—

(a) The value of the two Government of India University scholarships and of the scholarships granted to a male member of the domiciled community which are mentioned in paragraph 6 (a) and (c) of this resolution shall be raised from 200*l* to 250*l* a year when held in a college at Oxford or Cambridge.

(b) The value of the language or Oriental scholarships which are mentioned in paragraph 6 (d) of this resolution shall be raised from 150*l* to 200*l* a year on the understanding that the holders of these scholarships will in future be required to pay their own University fees, and it will be further increased to 250*l* a year on the same understanding when the scholarship is held in a college at Oxford or Cambridge.

(c) Before a male scholar leaves India his parent or guardian must show that he has sent to the Secretary for Indian students in London a sum of 25*l* for initial outfit expenses. In the case of a technical scholar the sum of 15*l* will be sufficient.

4 With regard to paragraph 1 (c), the difficulty of securing admission to colleges at Oxford and Cambridge is largely due to the late date on which applications for admission on behalf of State scholars are often received. The Secretary of State has recently pointed out that, to ensure success, such applications, accompanied by the requisite testimonials, should reach the Secretary for Indian Students in March or April each year. The importance of the early and punctual submission of the nomination of scholars was therefore brought to the attention of Local Governments and Universities. As will be observed from this Department's letter No. 2428-2432, dated the 24th December, 1913, nominations for University scholarships are required to be submitted in the spring or earlier. The Government of India have been in

communication with the Secretary of State regarding this matter and have ascertained that, in cases where delay is inevitable through the necessity of awaiting examination results, arrangements for the admission of scholars to Oxford and Cambridge colleges may be made, provided that the selection is reported to the Secretary of State by telegram early in June and testimonials forwarded during that month. In order that this may be done the Government of India desire that in the case of all State scholarships application should be received on or before May 15th at the very latest. Nominations submitted after that date cannot be considered, as otherwise the interests of all concerned may be affected adversely. It is hoped that by this means the arrangements made for the admission of State scholars to the English Universities, and especially those of Oxford and Cambridge, will be rendered more effective.

5 For the sake of convenience the present opportunity is taken to supersede and collate all previous resolutions and orders on this subject, and to issue the present resolutions, the appendices to which deal with State scholarships of all kinds held abroad and the rules relating to them. It is proposed, instead of issuing supplementary instructions which may be required in future, to embody them in re-issues of the present appendices. It is thought that this method will be convenient to the public, since enquiries regarding the conditions of these scholarships are frequent.

6 The Government of India have from time to time sanctioned from Imperial revenues the following State scholarships (including that established, in this resolution) tenable abroad by students of this country —

(a) Two scholarships of 200*l* to 250*l* [*vide* paragraph 3 (a)] to be awarded annually by the Universities (*vide* the Government of India, Home Department Resolution No 1-45-57, dated the 12th February 1886)

(b) Ten technical scholarships of 150*l* to be awarded annually to statutory natives of India (*vide* the Government of India, Home Department, Resolution No 41, dated the 20th January 1904)

(c) One scholarship of 200*l* or 250*l* [*vide* paragraph 3 (a)] to be awarded annually to a male student of the domiciled community (*vide* the Government of India, Home Department, Resolution No 221-238, dated the 19th March 1907)

(d) Two scholarships of 200*l* or 250*l* [*vide* paragraph 3 (b)] to be awarded annually for the study of Oriental languages (*vide* the Government of India, Home Department Resolution No 731-734, dated the 1st September 1908).

(e) One scholarship of 200*l* to be awarded annually to a female candidate of the domiciled community (*vide* the Government of India Department of Education, Resolution No. 1233-1247, dated the 10th July 1913).

(f) One scholarship of 200*l* to be awarded annually to an India woman graduate (*vide* paragraph 2 of this resolution).

Further detailed information regarding these scholarships is given in appendices to this resolution.

APPENDIX II

GENERAL AND SPECIAL RULES GOVERNING THE GRANT OF STATE SCHOLARSHIPS.

General Rule.

(i) Candidates must produce medical evidence of physical fitness to undergo a course of study abroad.

(ii) Except in the case of University scholarships for which (subject to the approval of the Governments of India, Madras and Bombay) the Universities make their own selection, each Local Government is invited to nominate annually a candidate or candidates, as the case may be, and the Government of India select from among those nominated the candidates who appear to them the best fitted to hold the scholarships. For technical scholarships no candidate is to be selected by Local Governments on the result of a competitive examination either open or limited.

(iii) Full details including the name and occupation of the scholar's father and place of birth, a summary of his academic career in India and a statement of the course of study proposed to be followed in the United Kingdom, should be furnished for transmission to the India Office some time before the scholar's arrival in England.

(iv) When nominating candidates already resident in the United Kingdom, Local Governments should give the earliest possible intimation to the Government of India regarding the qualifications of such candidates, the course of study they propose to pursue and their address in the United Kingdom. The Government of India will then communicate these particulars to the Secretary of State, and will await a reply from him before selecting the scholars. The Government of India will transmit to Local Governments the views or instructions received from the India Office at the earliest possible date and, if necessary by telegram.

(v) Difficulties sometimes arise owing to scholars arriving in England with preconceived plans and ideas based on the advice of educational authorities in India as to the courses of study they should follow and the institutions to which they should secure admission, or owing to a scholar's unassisted efforts on his arrival to make his own plans without a sufficient knowledge of the requirements of the educational institutions in the United Kingdom. To obviate this cause of difficulty arrangements should be made to let the India Office receive in good time any special suggestion that may be made by college professors and other educational authorities regarding the course of training which a particular scholar might follow with advantage.

(vi) Selected scholars should communicate with the local Advisory Committee (in Burma, the local branch of the Burma Society) in order that they may obtain advice regarding certificates, etc., and they should, when proceeding to England take with them the originals of their certificates, testimonials and other important personal documents suggested to them by the local Secretary to the Advisory Committee.

(vii) State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September, and to reside there for the period of their scholarship unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

(viii) The scholarships carry with them no conditions as to any subsequent career or service under Government and no expectations of such employment are held out.

II—SPECIAL RULES

(a) *University Scholarships*

It is open to each University to consider whether a special examination should be held for the selection of the scholars, or whether the selection should be made on the results of the ordinary examinations. If special examinations are held, the regulations which the University concerned may propose to lay down in regard thereto should be submitted for the previous approval of the Government of India, the necessary arrangements for the conduct of the examinations being made under the orders of the University authorities. The candidates for the special examinations, when such examinations are held, must be young men of proved ability, and will be selected by the Vice-Chancellor on the report of the Syndicate or governing body, who will in their turn be guided by the opinions of the professors and examiners concerned.

(b) *Technical Scholarships*

(i) Local Governments will consider what industries are of importance in the province, and which of them may best be encouraged by scholarships, taking care to connect the scholarship scheme with the system of technical and industrial education in the province. Industries in which Indian capital and enterprise are engaged or likely to be engaged are particularly appropriate for selection.

(ii) In the autumn of each year Local Governments consult local bodies leading firms and selected individuals as to the industry which is to be encouraged, etc. and, as a result of this preliminary consultation, issue a notification (with a copy of the technical scholarship rules) containing full particulars of the scholarship to be awarded, not later than December.

(iii) If Local Governments anticipate difficulty in arranging suitable courses in certain subjects, such as the study of fats, oils and soaps, glass making or the manufacture of sugar, a copy of the notifications is sent to the Government of India, who communicate with the Secretary of State early in January. The Government of India will reserve their final selection for scholarships till they have ascertained from the Secretary of State that suitable arrangements can be made in such subjects. In case courses cannot be arranged in any subject, it may be found convenient for Local Government to mention more than one industry in the notification, so that there may be a certain range of subjects and of candidates from which selection can be made.

(iv) In determining the industry to be studied and in choosing a candidate for the scholarship Local Government are required to bear in mind the importance of insuring that the scholar on his return will find scope for his skill and experience. In recommending a candidate for the study of any industry connected with agriculture, Local Governments might with advantage consult the Agriculture Adviser to the Government of India as to the course of training which the selected scholar should undergo.

(v) The subjects excluded from the scope of these scholarships are Law, Medicine, Forestry, Veterinary Science, Agriculture Civil Engineering and Geology. It is not intended to send scholars either to Europe or to America to study the extraction of alkalis or vegetable oil-pressing.

(vi) Candidates selected for scholarships should ordinarily be of such formed character and habits, and of such an age, that detailed tutelage should be unnecessary.

(vii) The form in which recommendations should be submitted will be found in Appendix III to this resolution

(viii) If a technical scholar is receiving preliminary training in India, a report upon his work and progress should be forwarded to the Government of India for transmission to the Secretary of State at the end of each year, so that his training in India and England may be made parts of one considered plan, and that no time may be lost on his arrival in England

(c) Domiciled Community Scholarship (Male Candidates).

(i) The two main principles which govern the grant of this scholarship are

(a) that, as the object in view is to assist a scholar to take up a University course in England, the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University as far as possible at the same age as boys educated in England,

(b) the scholarship will be given to the scholar who is most fitted to benefit from a course of study at a University

(ii) In making the selection due regard will be paid to the claims of each province to participate in its turn in the scheme

(d) Language or Oriental Scholarships

(i) The Scholarship will as a rule be awarded to a candidate who has passed examinations in India which will obtain for him admission to a University in Europe as an advanced or research student

(ii) Some elementary knowledge of French and German should, if possible, be acquired by the scholar before leaving India

(iii) In the selection of scholars for the study of Sanskrit regard should be paid to the following considerations. As the vast range of Sanskrit literature makes it necessary for a scholar to select some special field of Sanskrit learning in which to specialise the choice of the special branch of study should be made in India and the pertinent preparatory studies completed before the scholar leaves for Europe. Professors of Sanskrit in various European University have complained that individual language scholars have been unable to enter at once on the course of study best fitted for them through lack of preliminary knowledge which could quite well have been acquired in India. Accordingly if a Sanskrit scholar wishes to specialise on

(a) Veda or Philology, he should have some knowledge of Latin and Greek,

(b) Philosophy, he should have studied one of the systems of Indian Philosophy in the Original texts, and have read some Plato and Aristotle,

(c) Post-Vedic Literature, his reading should have extended considerably beyond the limits of the courses prescribed for the M.A. Examination of an Indian University

(e) Domiciled Community Scholarship (Female Candidates) and Scholarship to Indian Women

If a select scholar has friends or relatives in the United Kingdom willing to receive her during vacations, their names and addresses should be forwarded to the Educational Adviser in London.

GURUPRASANNA GHOSH SCHOLARSHIP.

The terms of the bequest are given in the following extract from the Will —

"I direct that my executors shall, after payment of all my just debts and making due provision for the objects hereinbefore mentioned and the costs they are likely to incur in the administration of my estate, sell the rests and residue of such of my estate as consists of landed properties and my jewellery and furniture and make over the proceeds thereof and all monies or securities for money of which I may be possessed to the University of Calcutta for the following purposes—namely, that the said University shall, out of the income thereof, send every year or as often as funds will permit either together or alternately pure natives of Bengal to study in Europe, America or Japan the Arts Sciences and Industries of Europe and America on such conditions and terms as to the said University may seem proper but they must bear in mind my intention which is as follows —*viz*, the promotion of real learning amongst our young men so that they may become specialists in some subjects of Arts or Science, the cultivation of the knowledge of agriculture and of the industries of Europe and America or the East

It is my desire that the University should further my object by awarding fellowships tenable for a certain number of years or in such other way as to the University may seem proper. In the case of boys or young men sent out to learn the industries of Europe, America or the East, or Agriculture, it is my desire that such educational tests be not laid as the condition for the obtaining of fellowships for that purpose as to make it possible for none but graduates to compete. My object is that young men possessed of energy and such preliminary knowledge as may be necessary should be sent and that the sons of artisans and mechanics following such industry in India may avail themselves of the fellowship. Preference should always be given to Hindus, if the University declines to undertake the work I direct my executors and trustees to discharge the functions themselves and make such arrangements as they think best. I give liberty to my executors and trustees to vary this direction if they think desirable in furtherance of the Tata Scheme, regard being had to the method in which I wish this direction to be carried out."

The following scheme for giving effect to the wishes of the Testator has been adopted by the Senate —

1. Not less than three scholarships each to be called "The Guruprasanna Ghosh Scholarship" shall be maintained out of the income of the endowment. Each Scholarship, shall be tenable for three years, and one appointment shall be

made annually. A scholarship, if tenable in Japan, will be of the annual value of Rs 1,000, if tenable in Europe or America of the value of Rs 2,000.

2 Candidates for the scholarships must under the terms of the Will of the Founder, be "pure natives of Bengal" and "preference shall always be given to Hindus."

3 Application for the scholarships shall be submitted to the Registrar not later than the 1st of August every year. If an applicant has not already passed the Intermediate Examination in Science of this University, or the final examination of a recognized School of Arts or Technical or Agricultural College, he must produce with his application proof that he has attained a knowledge of English and Mathematics up to the standard of the Matriculation Examination and the Physics and Chemistry up to the standard of the Intermediate Examination in Science.

Any person who intends to be a candidate for these scholarships may be examined upon payment of a fee of Rs 2 for each subject, in English and compulsory Mathematics in the papers set at the Matriculation Examination and in Physics and Chemistry in the papers set at the Intermediate Examination in Science, and if he attains the minimum standard laid down in the Regulations in all or any of the subjects in which he is examined, he shall be entitled to receive a certificate accordingly.

4 Candidates for the scholarships must have completed 18 years on the 1st March in the year in which they apply.

5 The application of every candidate must set forth precisely the institution in Europe, America or Japan in which, if elected to the scholarships, he intends to study, as also the particular branch of Agriculture or the Arts, Science and Industries of Europe, America or the East, in which he desires to specialize.

6 Candidates for the scholarships shall submit to the Registrar, along with their applications:

(a) Certificates of their good conduct from persons of respectability and position with whom they may be acquainted.

(b) Certificates of their physical capacity to undergo the course of life and study which they will have to follow in the country to which they intend to proceed, signed or countersigned by a medical man holding a degree or diploma of a recognised British or India University or Licensing Body.

Candidates must also state whether they have the consent of their families to proceed to Europe, America or Japan.

7 The application shall, in the first instance, be considered by a Committee of the Syndicate, consisting of the Vice-Chancellor and three other members, upon whose report the Syndicate shall, not later than the 1st September in any year, award the scholarship to that one among the candidate who is best qualified to promote the object of the Founder.

8 The Syndicate may contribute towards the expenses of the passage of the selected scholar such amount as the state of the funds may permit. The Syndicate may also, whenever practicable, contribute towards the return passage of any scholar who has specially distinguished himself in his studies.

9 Every scholar shall within four weeks of his arrival at the selected place of study, forward a report to the Registrar countersigned by the proper authorities, showing (a) the course of study he proposes to follow, (b) the

arrangement made for his residence, supervision and control. Any departure from the conditions to study and residence thus reported shall be duly intimated by the scholar for the approval of the Syndicate.

10 Every scholar shall, at the end of each term at the Institution where he prosecutes his studies, forward to the Registrar a certificate from the proper authorities, showing that his residence, conduct and progress in study have been satisfactory during the term. The continuance of the scholarship shall depend upon the regular production of such certificate.

11 Every scholar will be liable to forfeit his scholarship who not being disabled by illness or prevented by any other cause which the Syndicate may deem sufficient, fails to complete his studies for three years (in accordance with the terms and conditions set out in his application). 12 Subject to due compliance with the above conditions, the allowances will be forwarded quarterly in advance, by the Registrar, free of all charges to the chief controlling authority of the Institution where the scholar prosecutes his studies for payment to him.

13 The Senate may, at any time, upon the recommendation of the Syndicate, alter these rules consistently with the terms of the Will of the Founder, but not so as to prejudice the holder of any scholarship already awarded.

University Buildings.

The University had no local habitation of its own, since its foundation in 1857 till 1872. During this period the University had to transact its business in rented houses. In 1864 the site to the west of the College Street, facing the tank to the south of the Hindu School and the Sanskrit College, was selected for the University Buildings. The Public Works Department, Bengal, who was entrusted with the work of constructing the Building on the land, submitted in 1866 an estimate amounting to Rs 2,52,221 and instructions were issued by the Government of India to take up the work in hand at once. The Buildings known as the "SENATE HOUSE" were completed by the end of the year 1872 at a cost of Rs 4,34,697 and the University took possession of them early in 1873.

The Darbhanga Library Building has been built on the land to the west of the Senate House at a cost of over Rs 8,00,000, of which two lakhs and a half have been contributed by the Hon'ble the Maharaja of Darbhanga and the remainder has been met out of Government grant of Rs 3,00,000 and by a contribution of about double the amount from out of the Reserve Fund of the University. The Building accommodates the University Library, the University Law College, the University Classes in various subjects, the Registrar's Office and also provides Residential quarters for the Principal of the University Law College. The top floor which is utilised for holding the University Examinations accommodates about 700 candidates.

The building on the land, to the south of the Darbhanga Library Building measuring about a bigha, and a half, purchased at a cost of Rs 1,50,000 by the University out of its Reserved Fund, has cost the University over Rs 4,00,000 of which three lakhs have been met out of Government grant of three lakhs and the remainder out of the Reserve Fund of the University. The building has been constructed for the purpose of providing Hostel accommodation to the Hindu students of the University Law College who do not live with their parents or guardians. It has been named "University Law College Hardinge Hindu Hostel" after the name of the then Chancellor of the University, and it provides accommodation for over 150 students. The Hostel is under the direct supervision of the Principal of the University Law College, subject to the general control of the Governing Body of the College, whose proceedings are laid before the Syndicate for confirmation.

The University Press is located in the shed to the immediate west of the Senate House, originally erected to accommodate the Law Classes of the University Law College temporarily, pending the completion of the Darbhanga Library Building to which the College has been permanently removed.

The fish market, known as Madhab Babu's Bazar and situated to the south of the Senate House, has been acquired out of the Government grant of Rs 8,00,000. The land measures over 3 bighas. It is proposed to construct on the land a building which will provide Examination Halls and Lecture Rooms.

Maharaja Sir Rameshwer Singh of Darbhanga University Library.

Babu Joykrissen Mookerjee, of Uttarpur, made a donation of Rs. 5,000 to the University on the 20th July, 1869, for the purpose of forming a Library. The amount was invested in 4 per cent securities till the completion of the University buildings.

In 1874 the sum of Rs. 3,500 was added to the Library Fund from the surplus income of the University of that year and the Syndicate having thus at their disposal more than Rs. 9,000, appointed a Committee to report on the steps it was advisable to take to form a Library. The Committee reported (see Minutes, Vol. XVIII, page 22) that they thought 'if desirable to begin with procuring such books as shall render the Calcutta University Library *Supplementary to the other Libraries now existing in Calcutta*'. The general principles laid down by the Committee, and the mode of procedure they proposed for adoption, were approved by the Syndicate, and further transfers have, from year to year been made to the Library Fund from the surplus income of the University. Several instalments of books have been received, and the Library now contains besides English works of reference, and of the chief authorities on the Indian antiquities, fairly complete sets of the Sanskrit, Arabic, Latin, French and German classics.

In 1908 the Hon'ble Sir Rameshwar Singh, K. C. I. E., Maharaja Bahadur of Darbhanga, made over to the University a sum of rupees two lakhs and a half for the construction of a building in which the Library might be located. Presidency College, Calcutta.

HIS EXCELLENCY THE RIGHT HON'BLE LAWRENCE JOHN LUMLEY DUNDAS, EARL
OF RONALDSHAY, G C I E, Governor—Visitor

AFFILIATED, 1857

The Presidency College was established on the 15th June, 1855, under orders from the Honourable the Court of Directors of the East India Company. The circumstances of its establishment connect it closely with the Hindu College or Mahavidyalay, founded by a number of Hindu Gentlemen, aided by Sir Edward Hyde East, Chief Justice of the Supreme Court, and opened in January, the 20th, 1817. This origin connects the Presidency College with the Hindu and Hare Schools, and more specially with the former which continues the Junior Department of the Hindu College as Presidency College continues the Senior. The Graduate Scholarships attached to the Presidency College, of which particulars are given below, are a consequence of this connection being derived from the Hindu College Fund.

Presidency College is thus in its beginnings carried back to the first efforts to promote liberal education in British India and is associated with David Hare and Raja Rammohan Ray who were the inspirers of the movement which led to the foundation of the Hindu College.

From 1855 to the present year the Presidency College has been administered by the Education Department under the Director of Public Instruction, Bengal. In 1909 a Governing Body was constituted in accordance with Chapter XIX of the University Regulations and met for the first time Tuesday, March 8th, 1910.

In December, 1914, His Excellency Lord Charnmichael, first Governor of Bengal, became the Official Visitor of the College, a title which H E Lord Ronaldshay has also consented to accept.

Courses of Study.—Post Graduate Teaching is now under the control of the University. The College is affiliated to the B A Honour stage in English, Philosophy, History, Political Economy and Political Philosophy, Sanskrit, Pali, Persian and Arabic, and in Vernacular Composition, and to the B Sc Honour stage in Mathematics, Physics, Chemistry, Physiology, Geology and Botany.

Admission.—Presidency College since its foundation has been open to all classes of the community, the only condition of eligibility being compliance with the requirements of the University. Since 1907, owing to increase of numbers and in conformity with the letter and spirit of the new Regulations introduced in 1906, admissions have been strictly limited by consideration of space and efficiency of teaching.

The limit fixed for the under-graduate classes is a total of 650, distributed as under —

	Arts	Science.
1st-year	65	65
2nd "	80	85
3rd "	75	80
4th "	100	100

More particular information as to conditions of admission and choice of subjects is obtainable on application to "The Steward, Presidency College"

Admission is in all cases understood as implying an undertaking to submit willingly to the rules and discipline of the College.

Fees—The fees to be paid by ordinary students are an admission fee of Rs 10; a monthly tuition fee of Rs 12, and an annual athletic, Magazine and college union subscription of Rs 3-4as

Tuition fees are payable monthly in advance and are due for 12 months reckoning from June to May. Two months' fees are consequently due at the beginning of the session (July) and are payable before admission

MUHAMMADAN STUDENTS.

A definite proportion of seats is reserved for Muhammadan candidates desirous of admission to Presidency College and the minimum standard has been fixed at 25²/₁₀ for the present, provided, the candidates conform to the standard of educational fitness prescribed for the purpose

Further privileges in the shape of reduced fees and Mohsin stipends to the extent of 100 and 60 respectively, are enjoyed by Muhammadan students. They are granted to those eligible and are distributed in the manner indicated below—

Class	Reduced fees	Mohsin Stipends
1st Year	30	18
2nd Year	30	18
3rd Year	20	12
4th Year	20	12

The tuition fee paid by those who enjoy the privilege of reduced fee is Rs 5 per month, while those who are awarded Mohsin stipends, pay at the rate of Rs 7 a month

Mahomedan students pay the same athletic and Magazine subscriptions as other students

Hostel—The Eden Hindu Hostel for the residence of Hindu students at the College accommodates 260 boarders. Information as to conditions of admission and terms of residence is obtainable on application to "The Superintendent, Eden Hindu Hostel"

This Hostel was originally founded by public subscriptions, the Raja of Mahishadal being the principal contributor. At first other students than Presidency College students were admissible though students of that College always formed the great majority of the boarders. Since 1905, it has been an attached hostel of the Presidency College in conformity with Chapter XXIV of the Regulations. The new wing was added at Government expense in 1895, and Government has always borne the cost of maintenance

Tutorial Work—There is individual tutorial work in English (generally essay-writing) in all classes and as far as practicable in other subjects.

College Examinations—A college examination of the First and Third-year students is held each year at the end of March to determine fitness for promotion to the Second and Fourth year classes

Class exercises are set from time to time in all subjects in the under-graduate classes to give practice in written work and as a test of progress

Progress during the second year of the Intermediate, B A and B.Sc. courses will be judged entirely from tutorial work, practical work and class exercises, and students will only be sent up for the University examinations if their progress is satisfactory

Vacations—The recognized vacations are The long vacation, approximately 11 weeks between the middle of April and the beginning of July. The Durga Puja vacation, approximately 4 weeks between the Rains and the Cold weather

Scholarships and prizes—A number of scholarships, furnished out of the income of the Presidency College Graduate Scholarship Funds, are attached to the College. The fund originated with the subscriptions contributed in 1816 for the Hindu College. In 1863 it was amalgamated with three hitherto separate funds, which commemorated men eminent for their services to the cause of education. The scholarships are tenable by graduates of the Presidency College in Arts or Science for two years after taking the B A or B Sc. Degree, and have since 1909 been divided into two groups of five and six scholarships respectively, awarded in alternate years.

FIRST GROUP				Rs. per month
1	Burdwan Scholarship of			50
2	Bird Scholarship of			40
3	Gopimohan Tagore Scholarship of			3
4	Hindu College Foundation Scholarship of			40

2	Ryan Scholarship of			40
3	Hindu College Foundation Scholarship of			40
4	Do	Do	Do	30
5	Do	Do	Do	25

The Burdwan and Gopimohan Tagore Scholarships commemorate two of the original subscribers to the Hindu College Fund. The Bird, Ryan and Dwarkanath Tagore scholarships were founded later as testimonials in honour of Mr W Bird and Dr Ryan (1845-46) and Babu Dwarkanath Tagore (1849).

Three free studentships are provided out of the endowment of the late Maharaja Durgadasran Law, CIE. These are at the disposal of the founder's heirs subject to the conditions recognized as qualifying for admission to the College.

Two gold medals called the Scindhia Medals and a Prize called the Gwalior Prize are awarded annually on the results of the Intermediate Examinations in Arts and Science. They were the gift of H. H. the Maharaja Scindhia in 1870.

A prize for Sanskrit called the Harischandra Kaviratna Prize is also awarded on the results of the Intermediate Examination in Arts. It was founded in 1908 by subscriptions from pupils in memory of Babu Harischandra Kaviratna, for many years Professor of Sanskrit at the Presidency College.

Two scholarships of the value of Rs. 12 a month each, tenable for two years, are awarded annually to Hindu candidates on the results of the Intermediate Examination in Science and the Bachelor of Science Examination. A prize of the approximate value of Rs. 54 is also awarded annually to the Hindu student of the Second-year Intermediate Science class who shall produce the best laboratory notes on experimental work in Physics. They were founded in 1912 by the

executors to the estate of Srimati Nistarini Dasī, deceased, widow of late Bolyechand Dutī of Calcutta

A gold medal called the Chandranarain Gold Medal founded in the year 1915 by Srimati Ramkumari Debi in memory of her husband the late Ray Chandra Narain Sinha, M A, is annually awarded to the student of the college who stands first among the Presidency College candidates in History at the M A Examination

Hughli College.

AFFILIATED, 1857

The Institution was founded in 1836, and was originally supported from funds bequeathed by Muhammad Mohsin, a wealthy Mahomedan gentleman, who dying without heirs in the year 1806, left his large property, yielding an annual income of Rs 45,000 to Mahomedan Trustees 'for the service of God.' Owing to the misappropriation of the funds, Government assumed the office of Trustees. The right of assumption was opposed by the original Trustees but upheld both by the Courts in India and by the Privy Council in England. The period of litigation extended over many years, during which the annual income accumulated, forming a surplus of Rs 8,61,100. The surplus was devoted to the foundation and endowment of the Hughli College and was further increased by a portion of the original zemindaree that became available on the death of one of the Mootawallees of the Hughli Imambarah, an Institution which also derives its support from Muhammad Mohsin's legacy. The College endowments were further increased by the accumulation of unexpended revenue until the income amounted to Rs 51,000 per annum. In 1873 the Government of India resolved to transfer the whole of the Mohsin endowment to the purpose of Mahomedan education throughout Bengal, and accordingly increased the provincial assignment of education in Bengal by Rs 50,000 a year in order to meet the expenses of the Hughli College which has now become an Institution maintained by Government.

The College consists of two Departments, an English and an Arabic—and is under the control of the Director of Public Instruction Bengal. The English Department is open to all students who have passed the University Matriculation Examination, the fees being Rs. 6 for all.

There is a Governing body for the College of which the Commissioner of the Burdwan Division is *ex-officio* President, and the Principal, *ex-officio* Vice-President and Secretary.

The College has, for the present, arranged to teach English, Physics, Chemistry, Mathematics and Vernacular Composition for the Intermediate in Science, and for the Intermediate in Arts, English, History, Sanskrit, Persian, Logic, Mathematics, Physics, Chemistry and Vernacular Composition.

For the B.A. provision has been made for teaching English, Sanskrit (Pass and Honours), Persian, History, Mathematics (Pass and Honours), Physics, Chemistry, Vernacular Composition, Philosophy and Economics.

For the B.Sc. provision has been made for teaching Mathematics (Pass and Honours), Physics (Pass) and Chemistry (Pass).

There are two Hostels attached to the College, one for the Hindu students and the other for the Mahomedan students. There is another Mahomedan Hostel attached to the Madrasa, in which the boarding fee is Rs. 3-8 subject to enhancement, according to enhanced rates of food articles.

Krishnath College, Berhampur (Late Berhampur College).

AFFILIATED, 1857

The Older Gazetteers are unanimous in recording that a "British" College was opened in Berhampur in 1826, but the College as we know it, was opened in 1853. The foundation stone of the building, one moiety of the cost of which was paid by the community was laid in 1863, and the building came into use in 1869, when the Institution became a first grade College in Arts. A Law Department had been added in 1864. The status was, however, reduced in 1872 to that of a second grade College and the Law Department was abolished in 1875. The Institution again became a first grade College with a Law Department attached in 1888. It is open to all classes of the community.

In pursuance of the policy recommended by the Education Commission and adopted by the Government of India, the Bengal Government decided in 1886 to transfer the Berhampur College to private management. The magnificent offer of the late Maharam Swarnamay, C I F of Cossimbazar, to maintain the College for five years was accepted. Accordingly by a Bengal Government Resolution, dated the 14th May, 1887, the control of the College, administrative and financial, was vested in a Board of Trustees. Since the Maharani's death in 1898, the College has been financed by her nephew and successor, the Hon'ble Maharaja Sir Manindrachandra Nandy K C I E, of Cossimbazar. In 1905, the College was handed over by a deed of transfer to the Hon'ble Maharaja Sir Manindrachandra Nandy, K C I E, of Cossimbazar, with a Board of Management, consisting of the Maharaja as President, the District Judge, the District Magistrate and the Inspector of Schools, Presidency Division, as *Ex-officio* Members, and Rai Baikunthanath Sen Bahadur.

The Scottish Churches College, Calcutta.

[IN WHICH ARE INCORPORATED THE GENERAL ASSEMBLY'S INSTITUTION
AND DUFF COLLEGE]

In 1830 the Reverend Alexander Duff founded in Calcutta an Institution for the propagation of the Gospel through education, at once liberal and religious on Western principles and with English as the medium of instruction in the higher classes. This he named the General Assembly's Institution, because it was founded under the direction of the General Assembly of the Church of Scotland whose first missionary he was. Its success was immediate and great. Again, in 1843, when Dr Duff and his colleagues cast in their lot with that party in the Church which separated itself and formed the Free Church of Scotland, they founded another College under the name of the Free Church of Scotland Institution, on the same principles and with similar success. To the name of this second institution the title of Duff College was added after the death of that illustrious man.

During recent years the separated branches of the Church of Scotland have been desiring and aiming at co-operation and even reunion. Thus the demand for increased efficiency in Indian education and the evident wisdom of concentrating their efforts in one Institution, found them ready to take the decisive step of incorporating their separate Colleges in Calcutta in one. Accordingly, from the first day of June, 1908, the General Assembly's Institution and the Duff College ceased to maintain separate existence, and are now united as "The Scottish Churches College" working under the Scottish Churches Mission, with a Mission Council in Calcutta and a Board of Trustees in Edinburgh.

Bangabasi College

AFFILIATED, 1887

This Institution was founded under the name of Bangabasi School in May 1886. The success of the School in the first year of its existence led the proprietor to add to it a College Department, which was affiliated to the F.A. standard in June, 1887, and to the B.A. and B.L. standards in March, 1896. The College also prepared students and sent them up for the M.A. Examination for which separate affiliation was not required under Act II of 1857. Under the Universities Act of 1904, affiliation in the Intermediate standard in Arts was restricted to the subjects of English, Bengali, Sanskrit, Mathematics, History, Logic, Physics, Chemistry and Botany and in Science to the subjects of English, Bengali, Mathematics, Physics, Chemistry and Botany, in the B.A. standard restricted to the subjects of English (Pass and Honours), Bengali, Sanskrit (Pass and Honours), History (Pass), Mathematics (Pass and Honours) and Political Economy and Political Philosophy (Pass), and in the B.Sc. standard to the subjects of Physics (Pass), Chemistry (Pass), Botany (Pass) and Mathematics (Pass and Honours).

The Arts Department of the College has in addition to lecture works provision for regular tutorial help and exercise work in all the four classes conducted by the Professors in charge of the respective subjects with the help of tutors and supervised and scrutinized by Babu Lalitkumar Banerjee, the Senior Professor of English. The Science Department consists of two lecture galleries fitted up with the modern requirements of Science teaching, a Physics Laboratory, a Chemistry Laboratory and a Botanical Laboratory, for the Intermediate students, four Physics Laboratories, two Chemical Laboratories, two balance rooms, one furnace room and two Botanical Laboratories for the B.A. and B.Sc. students. Gas, water and electric connections have been so laid out that the students working in the Laboratories may have plentiful supply of these necessary adjuncts of practical work. The Laboratory rooms are lighted up with powerful electric lamps so that practical work when necessary is continued right into the early part of the night. The Laboratory work is conducted by the Professors and Demonstrators and scrutinized by the Principal.

Practical Laboratory work in the Science subjects is recorded in manuscript books of prescribed size with a printed College label attached to each. These manuscript books are carefully scrutinized, corrected and initialled by the Professors, Tutors and Demonstrators in charge. Periodical exercises are given in rotation in all subjects once a month, and the answer-books returned regularly after being corrected and the marks or remarks entered in a record-book kept for the purpose. Promotions and Selections for the University Examinations are regulated mainly on the basis of the records of marks or remarks.

In view of the comforts of students, the lecture halls and galleries are provided with powerful electric fans which have completely replaced the old roller punkhas, and sanitary arrangements have been brought up to date.

There is a printed catalogue of books contained in the Library and each student is supplied with a copy of it at a nominal price. Besides the books prescribed and recommended by the University, the Library possesses many other useful books of reference. To keep the Science students posted in facts of the latest developments of the subjects of their study, the Chemical Society's Journal, the Linnean Society's Journal, the Philosophical Magazine and Nature are subscribed. In the spacious Library, tables and seats have been arranged for the boys to consult books, journals and other periodicals during intervals of rest. Excepting the prescribed text-books and books of reference, all other books are lent out to students, one volume at a time to be returned after a week.

There are several College Messes close to the College.

The College has been publishing since January, 1903, a Magazine styled the *Bangabasi College Magazine*, which is issued once a month excepting during the vacation months. Educational matters and news mainly connected with the University, form the contents of the news column of the Magazine. Political and controversial matters are on principle eschewed as unwholesome and beyond the range of our undergraduates. The Magazine further affords an exercise-ground for the students to try their powers of composition in English, Bengali and Sanskrit, above all it tends to promote an *esprit de corps* to which we attach great importance and which is one of the most potent factors in creating and upholding a genuine *College life and College atmosphere*. In pursuance of this object a *Sporting Club* has been organized under whose auspices the College often enters for the Elliot Shield and other prizes open to College sporting clubs. It thus enables the boys to spend their afternoons in mainly open air games wherein is developed that spirit of co-operation and healthy rivalry which is essential to the growth of a sturdy manhood. Further there are two Associations *vis.*—an *Economics Association* and *College Association* mainly conducted by the First and Third year students, the Second and Fourth-year boys joining only occasionally.

The administrative control of the Institution is entirely in the hands of a Governing Body consisting of eleven Members with Raja Pearymohan Mukerjee M.A., B.L., C.S.I., as President, and the Principal as Secretary. The financial control is also vested in the Governing Body subject, however, to the approval of the Trustees of the College consisting of Lord Sinha, P.C., K.C., Under-Secretary of State for India, Mr. G. C. Bose, Principal, and three other members.

Free Studentships—Government junior and senior scholars receive tuition free.

College Scholarships—There are two graduate Scholarships of Rs. 8 each.

Brojomohun College, Barisal**AFFILIATED, 1889**

This Institution was founded as a High Class English School on the 27th June, 1884, by late Babu Brojomohun Dutt, Small Cause Court Judge of Nadiya, at the request of the District Education Committee which had been instructed by the Director of Public Instruction to secure the establishment of a private school, as the number of students in the Barisal Zila School had at that time exceeded 600 and the buildings were found too small for the accommodation of so many boys. Babu Brojomohun expressed a wish to raise the institution to the status of a second grade College but it could not be fulfilled on account of his sudden death. His sons Babu Aswinikumar Dutt and the late Babus Kaminkumar Dutt and Jaminikumar Dutt encouraged by the unexpected success of the Institution and with a view to carry out the wishes of their deceased father added the college classes up to the F.A. standard of the Calcutta University since June, 1889, and to the B.A. standard since July, 1898.

Babu Aswinikumar Dutt worked as an Honorary Professor from the foundation of the college up to 1906 giving up an extensive practice at the Bar.

In March 1912 the Proprietors by a trust deed made over their rights and the management of the college to a council on which the Government, the Proprietors and local interests have been represented, the Rev E. L. Strong, M.A. (Oxon.) being the first President of the Council, and the Government by an Indenture generously agreed to pay to the Institution three quarters of a lakh of rupees for the construction of a college building and monthly grant of Rs. 1,200 for the maintenance of the college and to acquire and make over a plot of land for the purposes of the college. It was agreed that the school department should continue as before.

A new site about a mile from the town and measuring about 56 bighas has been acquired and raised to the proper level and a new two storied building with 10 spacious rooms together with a suitable common room, out-houses, latrines, roads, and temporary Kutchha hostels capable of accommodating 220 students and four Superintendents, as well as a separate house for the Optional Classes, have been constructed, at a cost of about Rs. 1,33,000. The Government having paid a lakh of rupees in all for the site and buildings the deficit of Rs. 33,000 has been met from other sources.

The College classes except those for Chemistry students were removed to the new building after its completion in April, 1918.

A new one storied building for the teaching of Chemistry, which is now under construction on the new site and is likely to cost about Rs. 27,000 including that for the improvement of the Laboratory, will be ready for occupation from the next session.

Mr J. R. Blackwood, I.C.S., District Magistrate of Barisal is the President of the College Council which has been reconstituted for the second term with effect from the 27th March, 1917.

The object of the college has always been to impart to its students moral and unsectarian religious training together with intellectual and physical education.

Fees—The tuition fee is Rs. 4 per mensem with the additional contribution of Rs. 2 per annum. Chemistry students have to pay one rupee per mensem in addition.

Special features —Among the special features of the college might be mentioned —(1) The teachers' and students' Friendly Union which presents to students by means of hymns, readings, sermons and discourses on the lives of great men, unsectarian cardinal principles of religion and morality. (2) "The Little Brothers of the Poor" consisting of a band of college and school students tend the helpless sick without distinction of caste or creed and help the poor. Under its present gymnastics teacher Mr S K Guha and and Sports Secretary Prof N R Mookerjee the college has distinguished itself in athletics carrying off the James Roy Football Challenge Shield in 1915 and again in 1917 and 1919.

Scholarship and prize —A Scholarship of Rs 10 a month called the "Bell Scholarship" after the Hon'ble Mr N D. Beatson-Bell, B A, C I.E, C S I, I C S. tenable for two years in the B A. Classes of this College, is awarded to the student who passes the I A Examination in the First Division and stands just below the students who secure Government Scholarships from this college.

A silver medal or prize at the option of the recipient, founded by Babu Chandrasekhar Gupta, late Treasurer of the Currency Office, is awarded to the student who stands first among the successful Matriculation candidates of the school, provided he continues his studies in the college.

Subjects taught in the I.A Classes —English, Bengali, Mathematics Sanskrit, Arabic, Persian, Logic, History and Chemistry

Originally started as a second grade institution teaching up to the F A standard it was housed in a building erected by Government at a cost of over half a lakh of rupees. The short history of the college is one of steady growth since the establishment, due chiefly to the keen interest taken by Sir Lancelot Hare and Sir Archdale Earle, in extending its sphere of usefulness. In 1909, when Assam formed part of Eastern Bengal, B A and B Sc Classes were first opened and a new Science block was added to the main building. Since 1912, when Assam was reconstituted into a separate administration, the College has undergone further expansion. Honour classes in different branches of studies were opened in 1914 and numerous additions have been made to meet increasing demands, a new block having been added for the exclusive accommodation of the Arts Section. The College has a large Science Theatre with well equipped Chemical and Physical Laboratories, a good library and a common room for students provided with leading periodicals and newspapers. At a distance of half a mile from the College there is a spacious play-ground entirely belonging to the College and the Collegiate School.

COURSES OF STUDY

The College is affiliated to the University up to the M A standard in English (Group A), to the B A and B Sc Honours stage in English, Economics, Mathematics, Philosophy, History, Sanskrit, Physics and Chemistry, and to the B A Pass standard in Arabic and Persian. In Intermediate in Arts and Science it is affiliated in English, Mathematics, History, Sanskrit, Persian, Arabic Logic, Physics, Chemistry and Vernacular Composition.

Connected with the College under the control of the Principal, there are two separate Hostels for the Hindus and the Mahomedans under the supervision and management of four Resident Superintendents. The College Hostels have now accommodation for 276 boarders. The cost of living in the Hostels ranges from Rs 10 to Rs 11 according to market fluctuations. A visiting Medical Officer is in charge of the Hostels and looks after the health of the boarders.

The fees levied in the College are Rs 5 monthly tuition fee and Rs 5 admission fee. There is a limited number of free studentships which are awarded to deserving students. Junior Scholarships are awarded to the residents of the Assam Valley, upon the results of the Matriculation Examination. Senior Scholarships of the value of Rs 25, 20, 15 and 10 are also awarded on the results of the Intermediate Examinations.

Wesleyan College, Bankura

AFFILIATED, 1907

This College was established by the Wesleyan Methodist Mission in June 1903, partly because of the success of the Mission High School, now known as the Collegiate School, but chiefly because of the great demand for higher education in this part of Bengal. There is no College within 60 miles, and the climate is dry and healthy. The foundation of the College has been amply justified by the number of students who have entered it and the degree

of success obtained. The College is affiliated in English (Pass and Honours), Sanskrit (Pass and Honours), Philosophy, Economics and Mathematics up to the B A standard and in the usual subjects (including Chemistry and Physics) for I A and I Sc.

The College which is a handsome and convenient structure, stands in a compound of 115 bighas. Gas and electricity are manufactured on the premises. The College has an up-to-date workshop and an Astronomical observatory. The first College Hostel, a fine two storied building, holds 88 students and the second, the Ronaldshir Hostel, contains 64 single rooms. There is at present room for 60 students in attached Messes outside the compound.

The aim of the College is to give a sound healthy education based on high moral and Christian principles. The closest possible intercourse between Professors and students is attained. Cramping is discouraged. Scripture is taught systematically. The playing fields are very extensive. Cricket, football, hockey tennis and badminton are popular.

Victoria College, Narail

AFFILIATED, 1886

This College was originally founded as an H.E. School by the late Babu Ramtanu Ray, the local Zemindar. It was raised to the status of a second grade College in 1880 and to that of first grade College in 1890. There are however, at present no B A classes in the Institution. The College building is a splendid *pucca* one, situated in the midst of a vast lawn, which affords good space for all sorts of manly exercise. The Boarding House attached to the College is also a *pucca* one which, from its position and facilities for athletic sports, most prove an attractive residence to students. All the Professors, Teachers and students of the College and the Collegiate School receive free medical aid, provided by the descendants of the founder. The Vernacular School attached to the College has been incorporated with the Collegiate School, and the whole institution, in all the Departments, is under the control and supervision of the Principal.

The rate of fees in the College classes is Rs. 3 per month.

The Library of the College is well furnished with all the necessary or important works in English Literature. The Professors, including the Principal, are not only always accessible to students but are ever ready to help the boys in all sorts of ways.

The Central College, Calcutta**AFFILIATED, 1896**

This Institution was founded as a higher class English School, under the name of the "University Institution," on the 2nd June, 1893. The name, however, was shortly changed, and the Institution was recognised by the University of Calcutta under the name of the "Central Institution" which was altered again, in 1896, into the one it at present bears. The unexpected success of the School within a short period of its starting and the connection of a number of experienced educationists with its teaching staff, led to its being raised to the status of a Second Grade College in June, 1894.

The results for 1895, both in the Entrance and F A Examinations, having still further improved the prospects of the Institution, an application was made for its affiliation up to the B A standard of the University, and it attained to the status of a First Grade College in January, 1896. It completed the full period of five years for which it was stipulated to be maintained in June, 1901 and retained its rank and position as a First Grade College for full 14 years, that is up to May, 1910, when, under the operation of the new Regulations, its affiliation came to be restricted to Intermediate Arts standard of the University.

The institution is not, and has never been, supported by any donations, subscriptions or other aids, and its proprietary rights and responsibilities have absolutely been in the hands of its founder, Babu Khudiram Bose. Recently, however, a change in its present constitution, has been proposed.

Since the enforcement of the new Regulations of the University, the management of the College and the Collegiate School has been vested in a regularly constituted governing body and on the demise and resignation of some of its old members during the previous years it has been reconstituted in the following way—Lieut Col S P Sarbadhikari, C I E, M D (*President*) A K Ghosh, Esq, B A (*Cantab*) Bar-at-Law, (*Vice-President*), C H, Linton, Esq, M A, and R L Dutt Esq, D Sc (*Members*) and, the Principal of the College (*Member and Secretary*).

The object of the Institution, as remodelled after the promulgation of the new Regulations of the University, is to provide an un-aided College after the model of the great educationist, Pandit Vidyasagar, in the northern part of the city, for students of moderate means and resources, combining physical and moral training with the type of intellectual training, principally on the Arts side, adapted to the present day requirements of the University. Attention is paid to proper enforcement of discipline by precept and example, and examinations and exercises are held frequently. B A classes had been at work since June, 1896 and several among the many graduates from this Institution had graduated with Honours in the course of these years. The percentage of F.A success for 1907 was exactly 50, and that of B A (*A Course*) close upon that figure—an indubitable evidence of the success and efficiency of the College.

work for the year, markedly in connection with the B A test—beating, as it did, not only its own past records but also, those of all its sister institutions in this city for the year [*Calcutta University Minutes 1907*]. In 1919, again the number of I A successes was 210 (with 52, in the 1st Div)

The ordinary rate of the monthly tuition-fee in the College Department is Rs 5. The fee for admission is equal to a month's tuition-fee.

Two scholarships named "*King-Emperor and Queen-Empress Coronation Memorial Scholarships*" of the annual value of Rs 60 to be awarded to two such students of the Institution as would pass with distinction the Matriculation test of the University from this Collegiate School, have been recently provided for, in addition to a lot of School Annual (*Victoria Memorial*) Scholarships determined by the results of the school annual examinations. Two other Scholarships—*Vidyasagar Memorial* and *Bireswar Mitter Memorial*—are also awarded, one, to the student who stands first in the test examination in all the subjects taken together, and the other, in Mathematics only, of the Matriculation Class of the School. Two gold medals, named "*Durgacharan Sarkar Medal*" and "*Gaganchandra Basu Medal*", are to be awarded by the Founder or Principal of the Institution—the one, in memory of his youngest brother and pupil and the other, in memory of one of his distinguished pupils, both in Pandit Vidyasagar's Metropolitan Institution—to two such students of this College as would secure a Duff Scholarship and the highest number of marks in Logic, respectively at the Intermediate Examination in Arts of the University for any year.

The Logic Gold-Medal (*Gaganchandra Bose*) has been awarded in a very recent year.

Burdwan Raj College.

AFFILIATED, 1882

This Institution, since its first establishment in 1817 has been one of slow but steady growth. True to its mission of supplying the demands of the public of Burdwan for education in the modern acceptation of the term, it has always kept pace with the real wants of the place. Started as an Anglo-Vernacular School imparting rudimentary education which satisfied the intellectual cravings of the Burdwan people during the early days of the British rule in India, it passed through different stages of improvement, developed various phases of usefulness and at last attained a recognised position as a Second Grade College in 1881.

The educational establishments of the Maharajadhiraj Bahadur divide themselves at the present time under five heads —

First, the College Department, which is open to all students that are matriculated in the Calcutta University, teaching up to the I A standard. The monthly tuition fee is Rs 4, but there are numerous free-studentships and half-pay-studentships awarded to deserving pupils.

Second, the School Department, serving chiefly as a feeder to the above preparing students for the Calcutta University Matriculation Examination.

Third, the Persian Department, teaching, amongst others, those boys at the first two departments, that take up Persian as their Second Language.

Fourth, the Sanskrit School imparting instruction in the orthodox native style to those, whose religious scruples prevent them from availing themselves of the advantages of the English School.

And fifth and last, the Girls' School, the present provision in connection with which, is more than sufficient to meet the requirements of female education as it is understood at Burdwan. All these departments are under the control of the Principal.

The disbursements in the different departments, aggregate annually about Rs. 32,200, they being entirely met by the munificent charity of the Maharajadhiraj Bahadur.

Several boys in consideration of their extreme indigence, are found in money, besides provided with free tuition

Three scholarships, each of Rs 10 per mensem, and tenable for two years are annually awarded to some of the most successful I A candidates from the College, to assist them in the further prosecution of their University studies

Uttarpara College.

AFILIATED, 1887

This College is the final outcome of the long-continued efforts of the late Babu Jaykissen Mukerji in furtherance of the cause of English education in Bengal. In 1846, he had a Government School opened at Uttarpara on the basis of an endowment by him and his brother the late Babu Rajkissen Mukerji, of Rs 1,200 a year, and a Government assignment of equal value. The School prospered and own its way to the front rank among the Schools in Bengal.

Babu Jaykissen's wish was that his School should ultimately expand into a College, and to this end, so long as the year 1853 he asked Government to raise the school to a first class College, offering to contribute an equal sum with Government towards the maintenance of the College. In 1883, he submitted a proposal for the conversion of the School into a Second Grade College offering to make an endowment for its support so that it may cost the Government nothing. The recently initiated educational policy of Government stood, however in the way of his proposal being accepted, and it was accordingly not accepted.

He finally went up to Government in April, 1887, with a proposal for the establishment of an aided College in connection with the old Government School. Government accorded him permission to open such a College, but on the condition that he took the School off the hands of Government. He agreed to do so, provided Government left the school the material advantage it derived from its connection with the Government. It took some time to settle the terms of the transfer, which was formally effected in March, 1889. The College and the Collegiate School were then under the management of a Board consisting of the Collector of Hughly as President, of Raja Pearymohan Mukerji, C.S.I., and of Babu Rashbihari Mukerji as representatives of the late Babu Jaykissen Mukerji and of Babu Manohar Mukerji as representative of the late Babu Rajkissen Mukerji. But the Uttarpara School having been resumed by Government on 1st April, 1897, the College is now maintained by its proprietor, Raja Pearymohan Mukerji, C.S.I., M.A., B.L.

Murarichand College, Sylhet

AFFILIATED, 1891

This Institution was founded as a Higher Graded English School in 1886 by the late Raja Girischandra Ray, Zemindar of Sylhet, who after long-continued efforts in furtherance of the cause of higher education, raised it to the status of a Second Grade College in 1891. It is named Murarichand College after the name of the proprietor's grandfather, the late Babu Murarichand Ray.

The College has been provisionally from the 1st of April, 1912, but the name of the College has been retained as Murarichand College, Sylhet, in accordance with one of the conditions under which the late proprietor agreed to the transfer of the College to Government management.

When the new Regulations came into force in 1905, affiliation was restricted to the Intermediate in Arts in the following subjects, namely, English, Vernacular Composition, Mathematics, Logic, Chemistry, Sanskrit, Arabic and

Persian In the year following the provincialisation of the College, affiliation was extended in the following courses and subjects, namely, History, and Physics in the Intermediate in Arts, and English, Vernacular Composition, Mathematics, Physics and Chemistry in the Intermediate in Science

The affiliation of the College was further extended to the B.A. Pass standard in 1916, in the following subjects, namely, English, Vernacular Composition, Mathematics, Sanskrit, Persian, Arabic, History and Philosophy, and it was further extended to the B A Honours standard in Sanskrit in 1918.

The fees in the college classes are as follows —

Intermediate Classes	Rs 4 per mensem.
B A Classes	Rs 5 " "

There are three Hostels attached to the College, two for Hindu pupils to accommodate 116, and the other for Mahomedan pupils to accommodate 38 The Hostels are under competent supervision

Land to the extent of 26 acres, was acquired for the permanent establishment of the college, situated in the heart of the town of Sylhet This has however, been abandoned in favour of a better site outside the town, containing about 112 acres of land, the acquisition of which has been completed It is expected that, the question of the site having thus been finally settled, the construction of the permanent buildings will be well in hand during the course of the year 1920

Anandamohan College, Mymensingh.

AFFILIATED, 1908

The City College, Mymensingh Branch, established in July, was being maintained by the Council of the City College Institution, Calcutta. They directed it to be closed from the end of May, 1908, and applied to the University for its disaffiliation. Hearing this state of things some representative gentlemen of Mymensingh formed themselves in May, 1908, into a Provisional College Committee for the purpose of carrying on the College under the Provisional title of "The Mymensingh College," so as to meet the requirements of the District of Mymensingh for higher education. Accordingly an application for the re-affiliation of the College under the aforesaid title was submitted by the Provisional College Committee to the University by the middle of June, 1908. The Syndicate considered this application for re-affiliation on the 23rd June, 1908 and their recommendation was subsequently confirmed by the Senate. The Registrar submitted the application and proceedings of the Syndicate and Senate through the Hon'ble the Rector of the University to Government for orders, the City College, Mymensingh Branch, having been dis-affiliated in the meantime.

The Registrar informed the Principal that the new College should, in all future official correspondence, be properly designated by its correct name "The Mymensingh College" since the Government of India have accorded their sanction to the application for affiliation of the Mymensingh College under the name of "The Anandamohan College, Mymensingh"

Serampore College.

AFFILIATED, 1910

Serampore College was founded in 1818 under the patronage of the Marquis of Hastings, then Governor-General of India, by the Revs Dr. Carey, Dr Marshman and William Waid, who together with Colonel Krefting, the Danish Governor of Serampore, and J C Marshman, Esq, formed the first College Council

The object of the College was the instruction of Indian youths, both Christian and non-Christian, in Literature and Science, and the training of selected Indian and Anglo-Indian young men for the work of the Christian Ministry.

In 1821 the College received a donation from King Frederick VI of Denmark of certain premises to the northwest of the College building and this act of liberality was followed in 1827 by the grant of a Royal Charter, giving perpetuity to the Institution and its endowments and empowering it to grant Degrees At the cession of Serampore to the East India Company, in 1845, this charter was confirmed at the special request of the Danish Sovereign and a special clause was inserted in the treaty providing that "the rights and immunities granted to Serampore College, shall not be interfered with, but continue in force in the same manner as if they had been obtained by a charter from the British Government"

The ground on which the College stands was purchased chiefly by subscription, the entire expense of the original buildings, amounting to about £15,000, was met out of the private funds of the Serampore Missionaries, who were the first promoters of the undertaking The Institution was crippled at the outset by the loss of the greater part of its invested funds through a series of bank failures only a few years after the granting of the charter It was enabled to continue its work through the liberality of J C Marshman, Esq., but not on the scale originally contemplated The right of conferring degrees was therefore not exercised.

On Mr Marshman's departure from India 1856, the College, though still legally under the control of its own Council, was placed under the general direction of the Baptist Missionary Society, which contributed the greater amount of the funds needed for its support In the following year, 1857, Serampore was one of the first eight Colleges to be affiliated to the newly formed Calcutta University This connection continued till 1882, when it was decided to close the Arts Department converting the College into a purely Theological Institution

Twenty years later, the decision of the Universities Commission that it was neither practical nor expedient to make provision for a Faculty of Theology in connection with any of the existing State Universities, led the Decennial Missionary Conference, representing all Protestant Missions in India, to ask the Serampore College Council whether it would not be possible to make the Serampore Charter available for the granting of degrees in divinity. The Council advised by Dr Howells, the present Principal, resolved to accede to this request and also to re-organise the College on the lines planned by its founders, making it capable of imparting instruction in Theology of a standard equal to that obtainable in Europe and America With a view to providing a preliminary training in Arts for students intending to proceed to the B.D degree and for the benefit of the Christian community and of Hindu and Musulman youth generally it was also resolved to re-open the Arts classes.

Through the generosity of the Arthington trustees the Council has been enabled to rennovate the College and to build a new Hostel, including extra quarters for the professorial staff, at a cost of about two and half lakhs of rupees. They have also made considerable progress towards the raising of a new endowment fund.

The College is affiliated up to the Bachelor of Arts in English (Pass and Honours), Bengali, Philosophy (Pass and Honours), Sanskrit (Pass and Honours), History (Pass) Political Economy and Political Philosophy (Pass), Hebrew (Pass), Syriac (Pass). In the Intermediate Arts, the College is affiliated in English, Bengali, History, Logic, Sanskrit, Mathematics, Chemistry

Tuition fees —Rs 5 for Intermediate Arts (with an additional Rs. 2 for a science subject), Rs 7-8 for Intermediate science and Rs 7 for B.A. Classes. A few scholarships are granted to poor and deserving students. An annual charge of Rs 4 is payable to the Union Society, this including the subscription to the Athletic Club.

Attached to the College is a well-equipped Hostel. The Hostel establishment fee is from Rs 4-8 to Rs 7 according to the character of the accommodation. The charge covers seat rent, use of furniture, and cost of servants, light and medical attendance. Almost all the rooms are single-seated, but there are a few double rooms, for which the fee is Rs 4 (ground floor) or Rs 6 (first floor).

There is an additional Hostel healthily situated on the riverside under the direct supervision of the College. The establishment fee in this Hostel is Rs 4-8 (ground floor) or Rs 5-8 (first floor). There are no single-seated rooms in this Hostel. Another Hostel on the river-side is at present utilized for Syrian students.

The admission fee for the Hostels is Re 1.

The normal cost of food in the Hostels is Rs 9 apart from tiffin.

The ordinary fee payable on entrance (*viz* the admission charges, Union subscription and one month's fees) must be remitted with every formal application.

There is a large and valuable Library and considerable additions are being made to bring it up to date.

The Union Society provides opportunities for the discussion of topics of general interest and serves to promote a corporate feeling among the students of the College.

The College is under the control of a Council, of which the members who hold office for life, are appointed in accordance with the Charter and Statutes. This Council which sits in London, is at present composed of the following members —

Rev G. P. Gould M.A., D.D., Principal of Regent's Park College, London—Master of the College

South Suburban College, Bhowanipore.

AFFILIATED, 1916

This College was started in 1916 at the instance of the authorities of the South Suburban School, a flourishing institution of Bhowanipur which had been founded in 1874 by the local public with the object of promoting the growth and spread of higher education in the south suburban areas of Calcutta. The immediate occasion which led to the development of the school into a college was the abolition of the University Departments, both on the Arts and Science sides, by the two existing Colleges in and near Bhowanipur, namely, the L.M.S. Institution and the Bishop's College. That there was room for a first grade college here was abundantly clear from the very beginning, but partly from financial and partly from other considerations, the authorities of the South Suburban School were anxious to move cautiously, and they, therefore, applied in the first instance for affiliation up to the Intermediate standard only. They had great difficulty, however, in persuading the Government of India that second grade colleges did fulfil a definite function in the educational machinery of the country, and that it was a mistake to suppose that the view of the Indian Universities Commission of 1904 condemning the affiliation of such colleges had been endorsed in its entirety by the Government of India at the time. The result of the protracted correspondence on the subject was to delay the affiliation of the College which was obtained with effect from the commencement of the session 1916-17, although application for it had been made early in 1915.

Affiliation was granted up to the Intermediate standard in Arts and Science in the following subjects, as asked for —English, Vernacular Composition, Sanskrit Logic, History Mathematics and Botany. The College was started in a fine two-storied building at 26 Lansdowne Road in one of the best quarters of Bhowanipur with over 250 students on the rolls, but the very next year it became necessary to remove it to more spacious and more conveniently situated premises at No. 147, Russa Road South, where it is at present located and where there was accommodation for nearly 700 students. In October, 1917, the College authorities applied for extension of the affiliation up to the B.A. Pass standard in a few selected subjects, namely, in English, Vernacular Composition, Sanskrit, Mental and Moral Philosophy, History, Political Economy and Political Philosophy, and Mathematics, and this was granted with effect from the commencement of the session 1918-19. During session 1919-20 accommodation was enlarged to suit the requirements of about 825 Students.

Both the School and the College are under a General Committee, composed of 50 representatives of the local public, who constitute the ultimate controlling authority over the whole institution in financial matters. The actual management of the College is vested in a Governing Body which is quite distinct from the Managing Committee of the school, and consists of 11 members who are annually elected by the General Committee except that the Principal and another representative of the teaching staff are members *ex-officio*.

A special feature of the College is that in no section is the number of students allowed to exceed 75. In several subjects the number is in fact much smaller, the object aimed at being to ensure individual attention to every student as far as practicable. Copious provision is also made for tutorial work in every subject in small batches, as well as for frequent exercises and examinations. The College Council, consisting of all the Professors on the staff, has recently introduced a system under which each Professor is placed in charge of, and made responsible for, a specified number of students, who are required to look up to him on all matters, both in and outside the College, for help, guidance and advice.

There is a Debating Club and an Athletic Club, each under the personal supervision of one or more Professors, which are very popular among the students.

A large percentage of the students reading in the College live in the locality with their fathers or natural guardians. For those that do not do so, provision is made in Attached Messes or Hostels under the supervision of members of the staff. The seat rents are charged according to the scale fixed by the University under the Calcutta Messing Scheme. The College has a Special Officer for inspecting the residences of students.

The College fees are as follows —

Admission Fees Rupees Six. Tuition fee Rupees Six per month. Laboratory Fee (for Botany students only) Re 1 per month. Punkha Fee Rupees Two and Athletic Fee Rupee One for the session. Liberal provision is made for free and half-free studentships for deserving candidates. A fair number of College scholarships of Rs. 6 a month are also awarded every year on the results of a College Test.

The College possesses a fairly good Library (worth over 10,000, Rupees) of which free use is made by the students. Constant additions are being made to the stock of books.

Carmichael College, Rangpur

AFFILIATED, 1917

The College was started in July, 1917, and is the result of the earnest efforts of the residents of this district to remove a long-felt want. A scheme for the establishment of a college had originated as early as 1913, but it was not till 1914 that active steps were taken to carry it out. A Committee of the local representative gentlemen met under the Presidency of Mr J N Gupta, M A, I C S, the then District Magistrate, the scheme took definite shape. By March, 1917, donations to the extent of about 7½ lacs had been raised. An application to the University was then made for affiliation of the proposed college up to the B.A. standard, which was subsequently obtained.

The College occupied the new building in July, 1918. It is situated on a plot of ground measuring over 900 bighas of land, on the outskirts of the town and away from all contaminating influences. There are three boarding houses for Hindu and two for Mahomedan students accommodating 300, boarders and the Principal and staff of the college have been provided with quarters in the college compound, the idea being to develop it eventually into an entirely residential institution.

The College buildings are among the finest in Bengal. From the funds subscribed over two lacs have been invested in War Loan. Among the principal single donors may be mentioned the names of Raja Bahadur Gopal lal Ray of Tajhat (Rs 1,00,000), Rai Annadamohan Raychaudhuri, Bahadur, of Tapa, (Rs 1,00,000), and the Hon'ble Maharaja Sir Manindrachandra Nandi, Bahadur, K C I E., (Rs 50,000).

In February, 1918, His Excellency the Earl of Ronaldshay, Governor of Bengal, declared the new buildings open, spoke of the College scheme with the warmest approval, and announced a Government grant of 50,000 of rupees towards land acquisition and capital expenditure on buildings to which another (Rs 40,000), was afterwards added.

The College is under the management of a Governing Body with the District Magistrate as President. Mr J N Gupta, the late Collector—to whose strenuous efforts the college owes its existence—as well as Raja Bahadur Gopal Lal Ray of Tajhat and Rai Annadamohan Raichaudhuri Bahadur, of Lepa, in consideration of their generous contributions, are life members of the Governing Body

The College is affiliated to the University up to the B A. Pass standard in English, Vernacular Composition (Bengali and Urdu), Sanskrit (Pass and Honors) Arabic, Persian, Mathematics, History, Political Economy and Political Philosophy, and Moral and Mental Philosophy. In Intermediate Arts it is affiliated in English, Vernacular Composition (Bengali and Urdu), Sanskrit, Arabic, Persian, Mathematics, History and Logic. Affiliation has been further extended to the B A Honours standard in English, Philosophy and Mathematics

The tuition fee is Rs 5 per mensem, the seat rent charged from the hostel students is Rs 3 for the upper storey and Rs 2 for the lower storey

Rajendra College, Faridpur

AFFILIATED, 1918

The College was established in July, 1918, and has been named after the late Babu Rajendrachandra Raychowdhury, the Zamindar of Baishrashi, whose public-spirited and enlightened son and heir, Babu Rameshchandra Raychowdhury by his munificent donation of Rs 50,000 has made the institution an accomplished

fact Rs 30,000 more have been raised by subscription and donation. Among the chief minor donors the following names may be mentioned

	Rs
The Hon'ble Maharaja Sir Manindrachandra Nandi Bahadur	2 000
Babu Prafullanath Tagore ..	2,500
The Hon'ble Kumar Arunchandra Sinha ..	2,000

Babu Tarapasanna Bhattacharjee Choudhury has promised Rs 5,000 for the College Library and Babu Prafullanath Tagore has contributed to the library about 700 books

The College is well calculated to supply an educational desideratum of the district of Faridpur, so long without an outlet for the multitude of matriculates turned out year after year from the large number of High Schools it contains, and from the number of students admitted to begin with, the presumption is inevitable that a great future lies before it, for it is bound to expand considerably in all possible directions

The total area of the College ground is 555 acres or 17 bighas approximately, which have been conveyed by the Government in permanent lease at a nominal rent of Re 1 per annum for which the Faridpur public is particularly grateful to His Excellency Lord Ronaldshay and the Rt Hon'ble Lord Sinha as also to Mr J G Dunlop, I C S, the then Collector of the District who was kind enough to move in the matter. About 3 bighas of this land are now occupied by the Hostel buildings in which the classes were held in 1918. The new College Building with accommodation for a maximum number of 500 students is now complete. Close by, there is another commodious building which has been purchased by the College authorities and which is intended to be used as a meeting-hall, an examination-hall or a laboratory, as the case may be. A plot of land has been set apart for games and sports. In short, the College has every possibility of developing into a fully equipped first grade residential institution

The site of the College is an ideal one. It is at one end of the town, far from din and tumult, open in all directions, accessible by streets and it faces an enormous lake which fades away in the distant horizon

The College is under the management of a Governing Body presided over by the Hon'ble Babu Ambikacharan Mazumdar, M A., B L., the Grand Old Man of East Bengal, one of the foremost leaders of the country, to whose indefatigable endeavour and strenuous exertions the College mainly owes its existence and whose connection with it is a guarantee for its steady expansion and progress

The College has a Literary Club or a Debating Society and also a Mutual Aid Society—institutions which bring the students and professors together foster a healthy, corporate life and afford opportunities for co-operation and fellow-feeling the educative value of which it is impossible to exaggerate. The College has also an Athletic Club

The College is affiliated to the University up to the I A standard in English, Vernacular Composition, Sanskrit, Mathematics, History, Logic, Persian and Arabic

The tuition fee is Rs 4 per mensem. There is provision for eleven free-studentships

The sum of Rs 800 has been deposited by Babu Surendrakumar Ray, B L., Pleader of Faridpur, for the establishment of another free studentship to be called the "Swarnamayee free-studentship"

Dacca Training College

1 Opening—The Training College at Dacca was founded by Government and opened for the first time on July 5, 1910

2 Premises—The main building was constructed in 1904 by the Government of Bengal and is a fine two-storeyed erection in red brick situated in Armentola. The lower part of this building accommodates a Government High English School of about 240 boys and forms the practising School for the College. The upper storey is divided into four large and four smaller rooms and these are used for College class, lecture and staff rooms, a Laboratory, for Nature Study and Elementary Science and for the Office and Library. One of the larger rooms has now been divided, the smaller part being used for an Office. This has set free the old office for use as class room. The Library is now vacated for class purposes except for occasional tutorial work. The College and the hostels have been furnished with electric lights and the former with fans.

There are two hostels one for Hindus and the other for Mahomedans which, together accommodate up to sixtyfour students. The necessary offices and bathing places are also provided. The old buildings of the temporary Government School Hostel have been demolished and the whole ground levelled to make a fairly large play-ground for the boys in front of school. There is a separate play-ground for the College students, but it is unfortunately not quite large enough for full-sized field for the usual games.

3 Staff—Offg Principal, H. A. Stark, B.A., Off. Vice-Principal, Manoranjan Mitra, B.A., B T (Calcutta); Professor, Abdur Rahman Khan, M.A., B.T. (Calcutta), Offg. The Drill and the Drawing Instructors also work in Practising School, the former being in charge of the games of both institutions

4 Curriculum—The courses of study prescribed by the University of Calcutta for the Degree of Bachelor of Teaching and the Diploma of Licentiate in Teaching are generally followed. The courses for L T and for B T extend over one academic year. There is a special course in physical exercise followed by a departmental test.

5 Students—The students are recruited from (a) Government service (inspecting officers and teachers), (b) Aided and Board Schools, (c) The general public with the necessary qualifications.

The allowances are to (a) students their full salaries, to (b) students twenty rupees a month. A special grant-in-aid is made to (c) school to enable them to send their teachers to be trained.

Carmichael Medical College

FOUNDED, 1916

This College, the first non-official recognised Medical College in India, came into existence in 1916. The affiliation to the University of Calcutta in the Preliminary Scientific M B standard was obtained in April, 1916. The Institution that developed into this College was at the time of affiliation known as the Calcutta Medical School and College of Physicians and Surgeons of Bengal. It had its origin in the year 1886 when some independent medical practitioners met and thought that there was great demand for medical education and that the Government medical schools were unable either to cope with it or to supply a sufficient number of trained medical men for the people. It was decided to start the first private medical school under the name of the Calcutta School of Medicine to supplement the efforts of the Government. The school continued in rented houses for seventeen years. The bulk of the present site was bought in 1896 and the school was removed to Belgachia in 1903. The curriculum was modified in 1887 and framed according to that of the Government medical schools. The name was also changed to "Calcutta Medical School". For clinical instruction the students used to attend the Mayo Hospital from the year 1888. The Albert Victor Hospital (one storeyed building) was formally opened with 40 beds in 1902. The upper storey was built and the new wards were opened in 1909 the total number of beds being thus increased to 100. The institution flourished, numerous students wanted admission every year and many trained men of the Hospital Assistants standard were passed out. The College of Physicians and Surgeons of Bengal, another private institution started in 1895 aiming at medical education of the collegiate standard, was amalgamated with it in 1903. The combined institution was now called the Calcutta Medical School and College of Physicians and Surgeons of Bengal and continued to do useful work till session 1917-18. During thirty years hundreds of trained medical men passed out who are doing useful work under Government, Municipalities, in the various industries, (jute, tea, shipping, &c.) or as country practitioners. This was rendered possible, mainly by the voluntary, ungrudging, and unpaid work done both in the school and in the Hospital by the independent medical profession.

In 1911, before the introduction of the Medical Registration Bill the Government asked the private medical institutions in Calcutta to unite and form one good and efficient teaching institution with a view to help its recognition by the University or the Bengal Council of Medical Registration. Attempts at this union continued for nearly two years but failed. The Government of India then decided to render financial help to the parent institution at Belgachia with a view to its ultimate affiliation to the University of Calcutta. Negotiations were opened between the Government and the representatives of the institution in May, 1913. Ultimately a scheme was framed, the main conditions of which were that the Government offered to give a capital grant of 5 lacs, provided the Committee raised 2½ lacs from the public and a recurring grant of Rs. 50,000 provided they got Rs. 30,000 a year from the Calcutta Corporation and Rs. 10,000 annually from the University. The authorities had great difficulties in fulfilling the conditions of the Secretary of State and in obtaining affiliation of the University. However, at last these struggles were over and the difficulties overcome and the first affiliation to the University of Calcutta was obtained in April, 1916. The College was formally opened on the 5th July 1916.

In July 1917 the College was affiliated up to the standard of the 1st M B Examination. The affiliation of the college was extended to the Final M B Examination in July 1919.

The College Curricula are in accordance with the M B Examination rules in the Regulations of the Calcutta University.

In May 1918 the name of the Society was altered to "Medical Education Society of Bengal". New Rules and By-laws were framed and the Government of the College is now vested in a Council consisting of 11 members of whom 3 are nominated by Government and 1 by the Corporation of Calcutta. The Principal is a member ex-officio. Of the remaining six, 3 are selected by the College and the Hospital staff, and 3 by the members of the Society (2 of these are of the teaching staff this year).

----------	----------------------

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list —

I —The total cost need not exceed Rs. 65—

- 1 A measuring tape
- 2 A magnetic compass
- 3 Squared paper and tracing paper
- 4 Clay, dry sand, paper pulp for modelling
- 5 A globe, not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines, only of the landmasses, marked upon it
- 6 A map of the school locality on a scale of 4' or 6' = 1 mile.
- 7 A map of the district in which the school is situated on the scale 1"=1 mile
- 8 A coloured map of the Province
- 9 A coloured political map of India
- 10 A physical map of India
- 11 A relief map of India
- 12 A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps. Maps for school work should not contain too much detail, or be crowded with names.

II—The following additional equipment is recommended when it can be provided, but that lack of it is not to be considered as a bar to the recognition of the school in Geography --

1. A thermometer
- 2 A mercury barometer
- 3 A rain-gauge
- 4 A small collection of typical rocks, in particular those of the Province and of India
- 5 A small museum of typical products
- 6 A good standard atlas
- 7 Geographical pictures
- 8 Magic lantern and slides.

The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Karla-chandra Datta, Head Pandit, Hibiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W., and A K Johnston, London, and Messrs Ruddiman Johnston, London

Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date, so also are the Orographical wall maps published by Edward Stanford. Messrs Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various distributions

Messrs Nelson's wall atlases are good Mr S B Chatterjee publishes District Maps also ordinary and relief maps of the Province

Babu L M Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India

The Vidal-Lablache French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armand Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each are the best of their kind.

The uncoloured half-penny maps showing river systems and a few towns published by the same Company, are excellent for class use

The autograph hand maps, with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is specially to be commended

(5) Wall pictures of considerable artistic merit are published by Messrs Edward Arnold of Leeds, Messrs Hachette of Paris, and Messrs Holzner of Vienna, and Messrs Longmans, Green & Co. They cost, delivered in India, from two to three rupees each

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr Bartington Smith of Darjeeling also sell good picture slides of the Himalayas at Rs. 15 per dozen

The following books are recommended for the use of teachers —

Frew	A Regional Geography of the Indian Empire (Blackie & Son)
Wallis	.. The Teaching of Geography (Cambridge University Press)
O'Malley	... Bengal, Bihar and Orissa, Sikkim, (Macmillan & Co)

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of Schools —

A F Frye	The Child and Nature
----------	----------------------

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list —

I (The total cost need not exceed Rs 65)

- 1 A measuring tape
- 2 A magnetic compass
- 3 A Squared paper and tracing paper
- 4 Clay, dry sand, paper pulp for modelling
- 5 A globe, not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines only of the landmasses, marked upon it
- 6 A map of the school locality on a scale of 4" or 6" = 1 mile
- 7 A map of the district in which the school is situated on the scale 1" = 1 mile
- 8 A coloured map of the Province
- 9 A coloured political map of India
- 10 A physical map of India
- 11 A relief map of India
- 12 A map of the world on Mollweide's equal area projection and a map of Asia

It is essential that the students should be provided with atlases, or with the necessary hand-maps, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II The following additional equipment is recommended when it can be provided, but that lack of it is not to be considered as a bar to the recognition of the school in Geography —

- 1 A thermometer
- 2 A mercury barometer
- 3 A rain-gauge
- 4 A small collection of typical rocks in particular those of the Province and of India
- 5 A small museum of typical products
- 6 A good standard atlas
- 7 Geographical pictures
- 8 Magic lantern and slides

(1) The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal, and Assam made of paper pulp, prepared by Babu Kailas-chandra Datta, Heid Pandit, Habiganj Government Girl's School, Sylhet, and sold for Rs. 7 and Rs. 5 respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date so also are the Orographical wall maps published by Edward Stanford Messrs Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various distribution

Messrs Nelson's wall atlases are good Mr S B Chatterji publishes District Maps, also ordinary and relief maps of the Province

Babu L M Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India

The Vidal-Lablache French wall maps on strong cardboard, named on one side and the same map without names on the reverse, published by Armond Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs 4-14-0 each

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind

The uncoloured half-penny maps showing river systems and a few towns, published by the same Company, are excellent for class use

The Autograph hand maps with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollwerde's equal area projection is specially to be commended

(5) Wall picture of considerable artistic merit are published by Messrs Edward Arnold of Leeds, Messrs Hachette of Paris, Messrs Holzcl of Vienna, and Messrs Longmans, Green and Company. They cost, delivered in India, from two to three rupees each

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each Mr Barington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs 15 per dozen

ELIMINARY MECHANICS

The following books are recommended —

Sir Philip Magnus	Elementary Mechanics (Longmans, 1903)
A. N. Sen	Elementary Mechanics

The following list of apparatus is prescribed as indicating the approximate requirements of a recognized High School seeking to teach Elementary Mechanics for the Matriculation Examination —

- Plumb-line and Level
- Simple Lever (including brass slotted weights)
- Roman Steelyard
- Lecture Apparatus for experiments on moments
- George's New Atwood's Machine
- Stop-watch
- Glazebrook's apparatus (to demonstrate movement of a body)
- Hick's Ballistic Balance
- Compound Wheel and Axle
- 4 Single Brass Pulleys
- 2 Single Brass Pulleys
- 2 Triple Brass Pulleys

Weston Differential Pulley Blocks ($\frac{1}{2}$ ton)
 16 feet of chain at 6d per foot
 Inclined Plane
 Parallelogram of Forces apparatus
 Wall Crane
 Becker's New Physical Balance
 Set of Gramme Weights (20 grams to 1 mgr)
 2 Composition-ivory Balls

Note—The above list is not exhaustive, and much of it might be replaced by simpler forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.
